READ CAREFULLY BEFORE ORDERING

All prices in this catalogue, owing to uncertain market conditions, are subject to change without notice. Should we be required to replace the merchandise we now have on hand (listed in this catalogue) on present market, there would have to be a higher price than our catalogue price to the purchaser. On the other hand, should such a condition exist that replacement reduced the cost to us, we will gladly reduce in proportion, the price to our customers. This policy applies to all grain, grass, vegetable and flower seeds as well as all other items quoted herein. WE DELIVER all Vegetable and Flower Seeds when bought at the packet, ounce, ¼ pound, ½ pound or one pound prices, but when seeds ordered are listed in pints and quarts, postage should be added at the rate of 5 cents per pint and 6 cents per quart. Each additional quart add 2 cents. In all other cases goods will be SHIPPED F. O. B. LEWISTON.

No charge for packing, unless otherwise stated. Bags will be charged for as follows: 2 bushel bags, 40 cents; ½ bushel bags, 15 cents; peck bags, 12 cents; ½ peck bags, 10 cents.

We give no warranty expressed or implied, as to description, quality or productiveness of our seeds, and in sending them out, will in no way be responsible for crops or lack of satisfactory product from our seeds. If the purchaser does not accept the goods on these terms, we must be notified at once, when we will give full instructions for disposition of such goods. This is the invariable rule of reliable business houses.

We do, however, purchase our seeds from reputable growers and employ every means, taught us from years of successful dealing in seeds, to insure proper grading and purity. Seeds are tested by our experts before offering them for sale, so we are as reasonably sure of their germination as nature and science permits of assurance.

PARCEL POST INFORMATION ON PAGE 10

NOTE—We would deem it a great favor if our customers, or those wishing to remain on our mailing list, thereby receiving our catalog, would inform us of change in address.

CHOOSE FLOWER SEEDS
GENERAL LIST

Postage Prepaid on all Flower Seeds in Packets at Prices Quoted.

SPECIAL INDUCEMENTS

When the money accompanies the order, purchasers of Seeds in packets at catalogue prices may select 25 cents' worth extra packets for each $1.00 sent. Thus anyone enclosing $1.00 may order seeds in packets amounting to $1.25. Two dollars sent to us with the order will pay for seeds in packets amounting to $2.50 and so on. This offer does not include seeds in collections, by weight or measure, bulbs, plants, or anything excepting seeds in packets.

Plants are generally known and described as Annuals, Biennials, and Perennials. The term annual is applied to plants which flower and ripen their seeds the same season. Hardy annuals are those which may be sown in the open ground. Half hardy annuals are those which should be started in the house and transplanted to the garden. The term biennial is applied to plants which flower the second season after planting and then perish. The term perennial is applied to plants which flower the second season after planting, and continue to flower year after year.

**Acroclinium**. (Everlasting) hhA. Pretty Everlasting Flower, fine for winter bouquets. The flower should be gathered when young.

- *Double White* ................................ Pkt. .05
- *Double Pink* ................................ Pkt. .05

**Adonis**. Showy, popular border flowers, remaining a long time in bloom.

- *Pkt. .05

**Ageratum**. (Floss-Flower.) hhA. Blossoms continually throughout the summer. Highly prized for bedding out, and valuable for winter blooming indoors.

- *Imperial Dwarf*. Dark blue. 9 in.; good for edging. 
- *Pkt. .05

**Alyssum**. Very hardy, free blooming dwarf plants, all varieties growing freely in common soil. The pretty, fragrant flowers are much prized for bouquets; excellent for the summer garden.

- *Saxatile Compactum*. Yellow flowers; fine for borders. Perennial. 
- *Pkt. .05

- *Little Gem*. White. They grow but three or four inches in height, very compact, of spreading growth, each plant often forming a circle a foot in diameter. Pkt. .05

- *Tricolor*. Mixed—Carmine scarlet, splendid variety. 4 to 5 ft. 
- *Pkt. .05

**Antirrhinum**. (Snapdragon.) Beautiful, hardy, free blooming plants for summer and fall. Flowers the first year from seed as annuals and should be treated as such. Average height, 1½ feet.

Candytuft. Showy, hardy annuals, growing about a foot in height. Excellent for bouquets.

Carmine ........................................... Pkt., .05
Lilac ................................................. Pkt., .05
Empress White ...................................... Pkt., .05
Mixed .................................................... Pkt., .05

Canna. Indian Shot. The luxuriant foliage and superb flower of the Cannas, especially of the new French and Italian races, easily places them foremost among our subtropical bedding plants.

Crazy's Newest Mixture .................................. Pkt., .05
Nigrans—Dark Red Foliage ............................. Pkt., .05

Carnations—Marguerite—the earliest of all Carnations, blooming in July or August if sown in spring and continuing till frost. Being half-hardy perennials, a slight protection of coarse straw or pine boughs will preserve them during winter and they will flower profusely the next summer, or they may be potted to bloom during the winter in the house. The flowers are large, about eighty percent usually coming double; beautifully fringed and clove-scented.

Giant Mixed ......................................... Pkt., .10

Celosia, or Coxcomb. Showy annuals of easy cultivation; producing large, brilliant, comb-like flower heads. They prefer a light soil, and should not be allowed to become crowded if a dwarf habit is desired.

Celosia ................................................. Pkt., .05

Chrysanthemum (Annual Varieties.)

Showy, hardy annuals of easiest cultivation and blooming early in summer. They are most desirable for seashore and mountain gardens. Height 2 feet.

Double Yellow ...................................... Pkt., .05
Double White ....................................... Pkt., .05
Double Mixed ...................................... Pkt., .05

Centaurea. Flowering Annuals. Imperials—Giant Corn Flower. The flowers are of enormous size; fragrant, and of the most charming colors, including white, pink, lilac, rose and purple. They are among our best summer flowers for cutting.

Marguerite—White ..................................... Pkt., .05
Cyanus—Bachelor's Button, mixed .................. Pkt., .05

Coboea Scandens. A fine, rapid growing climber with handsome foliage and large, bell-shaped flowers, green at first, but rapidly changing to a beautiful, deep violet-blue. A well established plant will run about thirty feet in a season, covering a large veranda with handsome foliage and beautiful flowers. Tender perennial ............................ Pkt., .05

Coleus. Splendid bedding plants, with beautifully colored and handsomely marked foliage. They are easily raised from seed if kept in a warm temperature. Tender perennials.

Hybrid Mixed ........................................... Pkt., .25

Convolvulus Major—Tall Morning Glory.

Finest Mixed ......................................... Pkt., .05

Japanese Morning Glory .............................. Pkt., .05

Convolvulus Minor—Dwarf Morning Glory.

Finest Mixed ......................................... Pkt., .05

Cypress Vine. Ipomoea Quamoclit. Very graceful twining annuals with feathery dark green foliage and star-like flowers. Twenty feet.

Scarlet ................................................. Pkt., .05
**Cosmos.** This is one of our most useful and beautiful autumn flowers. To get it in bloom early, the seed should be sown in May in the open ground where the plants are desired to bloom, and the seedlings allowed to grow and flower without being transplanted.

Fine Mixed ........................................ Pkt., .05

**Dahlia.** The popular flower can be easily raised from seed and flowered the same season. The roots should be placed in dry sand and kept in a cellar where there is no frost during the winter.

Fine Mixed ........................................ Pkt., .10
Single Mixed ........................................ Pkt., .10

**Gourds.** Luxuriant, climbing annuals, useful in covering arbors, fences or slopes, and bearing gourds which are of interesting forms and colors 10 to 15 feet.

Mixed ................................................ Pkt., .05

**Gypsophila.** Infant's Breath. Free flowering, hardy plants; extremely light and graceful, easy of cultivation, and most useful for bouquet and cut-flower work. Height, 18 inches.

Mixed ................................................ Pkt., .05

**Helianthus.** Sunflower. The large varieties are useful in forming backgrounds of large beds or borders and for distant effects, while the smaller sorts may be planted with scarlet Salvia, Cannas and other tall bedding plants, besides being excellent for cutting. Hardy annuals.

**Diadem (New).** Flowers beautiful light lemon with black center; of the greatest value for cut flowers. Pkt., .05

Double Mixed ........................................ Pkt., .05

**Helichrysum.** Everlasting Flower. Showy annuals for beds or borders; useful as dried flowers for winter bouquets, for which use the blooms should be cut before they are fully open, and hung up to dry with the flowers downward if stiff stems are desired. Height 2 feet.

Double Mixed ........................................ Pkt., .05

**Heliotrope.** Delightfully fragrant greenhouse perennial; excellent for bedding or indoor cultivation and particularly useful for cutting.

Giant. Newest large flowering varieties mixed.

Pkt., .10
Hollyhock. This ever popular hardy favorite of our gardens has few rivals in majestic grandeur. Hollyhocks succeed best in rich, well-drained soil. They should be lightly protected during winter with pine boughs, coarse straw or other mulch not liable to rot. Seeds sown in July produce fine plants for blooming the following summer. Hardy biennials; 6 to 8 ft.

*Chaters Strain.* Double finest mixed.......................... Pkt., .10

*Humulus Japonica.* Japanese Hop. Splendid annual climber of fast growth and very ornamental. 12 ft.

Pkt., .05

*Kochia Trichophila.* (Standing or Summer Cypress.) Splendid ornamental annual of unusually quick growth, forming regular pyramids of about 3 ft. in height. The slender-leaved plants are of a cypress-like appearance during the summer, changing their light-green foliage to carmine and blood-red colorings. The plant, also called "Burning Bush," is of great value when planted singly or in groups, as well as for pot culture. 3 ft. Pkt., .05

*Larkspur.* Splendid hardy annuals with showy flowers borne on long spikes; white, lilac, and all shades of blue; excellent for cutting. Height, 18 inches.

*Double Tall.* Branching or stock flower mixed. Pkt., .05

*Lavender.* Ornamental hardy perennial, bearing long spikes of very fragrant blue flowers. 18 inches. Pkt., .05

*Lobelia.* The Erinus varieties are most valuable for edgings, hanging baskets and vases, blooming profusely from June till frost. *Lobelia Cardinalis* and its varieties are among the most brilliant autumn flowering perennials.

*Crystal Palace Compacta.* The darkest blue. Pkt., .05

*Finest Mixed* ................................................. Pkt., .05

*Marigold.* Tagetes. These handsome half-hardy annuals when well grown cannot be surpassed either in mixed borders or when grouped together. They succeed best in moderately rich soil and in open situations, and are strongly recommended where a gorgeous display in the autumn is an essential feature.

*Golden.* Double tall mixed........................................... Pkt., .05

*Mignonette.* Reseda Odorata. The most fragrant annual, prized as much for forcing in winter as for the summer garden. The seeds should be sown early and the plants as they grow, thinned sufficiently to allow them to branch. They should be liberally watered during dry weather.

*Parson's White* .................................................. Pkt., .10

*Macchet, Red* ................................................... Pkt., .10

*Bird's Mammoth Mixed* ........................................... Pkt., .10

*Nicotiania Affinis—Annuals.*

*Colossea—Magnificent foliage plant that soon attains a height of five or six feet, with young leaves at first tinted with red. Its leaves are often two feet in length and a foot in width. Excellent for foliage beds.* Pkt., .10

*Sylvestris.* A splendid new variety with glaucous leaves and large pendants, pure white, tube-shaped flowers; a very stately plant. Pkt., .10

*Nasturtiums—Dwarf Varieties mixed.*

*Tom Thumb,* or Dwarf. These hardy annuals are of easiest cultivation; succeeding best in rather light soil, withstanding heat and drought and flowering profusely from June or July until cut down by severe frost, usually well into November. The dark-leaved varieties are partic-

*Nasturtiums—Tall or Climbing.*

*Finest Mixed* .................................................. Pkt., .05; oz., .15; ¼ lb., .45

*Papaver,* or Poppies. Annual varieties, showy, hardy annual of easiest cultivation and embracing many rich and beautiful colors. The seed should be sown early in spring where intended to bloom.

*Shirley—Finest mixed.* A most charming race of single Poppies with shining flowers of silky texture, varying in color from pure white and delicate pink to rosy carmine and deep crimson; many of them being beautifully striped and edged with white. The blooms if cut when young will keep in water for two or three days. Height 2 ft. Pkt., .05

*Double Carnation Mixed* ........................................... Pkt., .05

*Oriental Deep Crimson* ........................................... Pkt., .05

*White Swan* ................................................... Pkt., .05

*Forget-me-not.*

*Myosotis—Forget-Me-Not.* Dwarf, half-hardy perennials, bearing a profusion of little, star-shaped flowers. They thrive best in rather moist, shady situations. Most of them will bloom the first year from seed if sown early.

*If sown in July or August in shaded frame, fine plants will be obtained for spring blooming. They are very beautiful when planted in combination with late spring bulbs, Daisies, Arabis or Golden Alyssum.

*Palustris—True Forget-Me-Not.* Dark blue, very beautiful; profuse flowering. Pkt., .10
ularly adapted for ribbon beds and borders, the brilliant flowers contrasting admirably with the bronzy red foliage. Height, 1 foot.

**Finest Mixed.** Our special mixture of the finest sorts, in great variety of color. Pkt., .05; oz., .15; ¼ lb., .45

**Phlox Drummondii.** This is one of the finest annuals, being hardy, easy of cultivation and making as a summer bedding plant an effective and brilliant display. The flowers are of long duration and of most gorgeous and varied colors. Height, 1 ft.

**Finest Mixed—Splendid colors** Pkt. .05

**Grandiflora Finest Mixed.** The flowers are of large size, finely rounded form, and with well defined eyes. The colors are superb. Pkt., .10

**Petunia.** The Petunia is popular because it is of easiest cultivation, blooms from early summer continuously until frost and is one of the most showy and free-growing annuals. Height 12 to 15 inches.

**Single Flowering Petunia**

**Hybrida—Finest Mixed** Pkt., .10

**Fimbriata—Fringed, Single Mixed** Pkt., .15

**Double Flowering Petunias**

**Double Fringed—Extra Large** Pkt., .20

**Portulaca.** Charming dwarf annuals for sunny situations or light soils, producing flowers of most brilliant colors in great profusion. Height, 6 inches.

**Grandiflora Plenissima—Double Mixed** Pkt., .10

**Grandiflora—Fine Single Mixed** Pkt., .10

**Rhodanthe.** Half-hardy annuals with “Everlasting” flowers. They are beautiful for the open garden, or grown in pots for the conservatory. If required for winter use, as dried flowers, they should be cut before they are fully expanded. Height, 1 foot.

**White** Pkt., .05

**Mixed** Pkt., .05

**Ricinus.** *Castor Oil Plant.* Tender annuals of rapid and gigantic growth, producing enormous dark green or bronze-colored palmate leaves; excellent for sub-tropical beds, or for massive foliage effects on lawns or backgrounds.

**Zanzibaricensis.** Mixed. A new and distinct race from East Africa, producing leaves of enormous size, varying in color from light green to purplish red. Height, 15 feet.

**PANSIES**

**Pansy,** or **Heartsease.** Too much importance cannot be attached to the culture of these beautiful plants, flowering as they do in great abundance for several months. When sown in the early spring a good display in most cases can be had in the following fall, but the best results are not obtained, by so doing. To obtain fine blooms it is better to sow during summer and transplant the seedlings in cold frames in September, protecting during the winter with mats or shutters. Pansies delight in a cool, moist, well drained soil, enriched with decomposed barn-yard manure. They should never be allowed to suffer for want of water.

**Giant Blue** Pkt., .10

**Giant Black** Pkt., .10

**Giant Purple** Pkt., .10

**Giant Yellow** Pkt., .10

**Giant White** Pkt., .10

**Giant Mixed** Pkt., .10

**Mixed** Pkt., .05

**Giant Fringed Mixed** Pkt., .15
**Sweet Peas**

Our Sweet Peas are unsurpassed in selection, purity and vitality. Seed should be sown in new ground as early as it can be worked in spring. The vines should be thoroughly established before the hot weather sets in. White-seeded sorts should be sown a little later, when the ground is warm.

**Haskell's Peerless Mixture.** We invite comparison of our mixture with any and all others, no matter under what name or at how high a price offered, and are certain a trial will demonstrate the superiority of our Peerless Mixture.

**Prices on Haskell's Peerless Mixture:**
Pkt., .05; oz., .10; ¼ lb., .25; ½ lb., .45; lb., .90.

**Prices on all Separate Colors:**
Pkt., .05; oz., .10; ¼ lb., .35; ½ lb., .65; lb., $1.25.

**Blue and Purple**

**Captain of the Blues.** Standard light maroon; wings light purple.

**Navy Blue.** Deep violet blue.

**Variegated**

**Aurora.** Flaked orange salmon; largest striped.

**America.** The brightest blood red striped.

**Daybreak.** Crimson scarlet on white ground.

**Gray Friar.** Beautiful watered purple on white ground.

**Helen Pierce.** Blue mottled on pure white.

**Mrs. Joseph Chamberlain.** Rose and white striped.

**Countess of Radnor.** Pale mauve standards, wings pale Lavender and Mauve

**lilac, very fine.**

**Dorothy Tennant.** Deep rosy mauve; beautiful.

**Emily Eckford.** Standard reddish mauve, wings blue.

**White**

**Blanche Burpee.** Pure white of superior substance, flowers large and finely formed.

**Emily Henderson.** A new pure white, largest of all and an excellent sort.

**Sadie Burpee.** White seed. Very large. Pure white.

**Dorothy Eckford.** Pure white.

**Light Yellow**

**Mrs. Eckford.** Delicate shade of primrose yellow.

**Primrose.** Color pale primrose approaching yellow.

**Shades of Pink**

**Lovely.** Large pink standard, delicate rose wings.

**Hon. F. Bouvier.** Standard flesh-pink, wings rosy buff.

**Sybil Eckford.** Pink and buff.

**Prima Donna.** Lovely pale pink. One of the finest.

Claret and Maroon

Cattivation. Beautiful claret color.
Waverly. Standards rosy claret, wings shaded blue.
Black Knight. Deep maroon.

Salpiglossis. Half-hardy annuals; elegant late summer flowering plants of great diversity in color; beautifully penciled in rich tints of yellow, purple and brownish red. Of easy culture.

Grandiflora—Finest Mixed .................................................. Pkt., .05

Salvia. Flowering Sage. Very ornamental; flowers borne in spikes of fiery red, crimson or blue, and continue in bloom in open ground until after severe frosts. Start in heat and transplant into light soil one to two feet apart. Tender perennials, but bloom the first season. Height, 2 ft. to 3 ft.

Bonfire—Scarlet ................................................................. Pkt., .10
Cocinea—Mixed ................................................................. Pkt., .10

Stock—Gilliflower. The charming colors, delightful fragrance and free-blooming character of the Stocks have made them favorite plants for both summer and winter cultivation. They are very effective for beds and borders, and their handsome spikes are invaluable for bouquets and floral decorations.

Large-Flowering, Double Ten-Week Varieties. Highest grade, pot-grown seed. The best variety for early summer blooming, producing massive pyramidal flower spikes of brilliant colors and delightful fragrance. Height, 1 foot.

Lavender ................................................................. Pkt., .10
Pink ................................................................. Pkt., .10
White ................................................................. Pkt., .10
Finest Mixed ................................................................. Pkt., .10

Sweet William. Dianthus Barbatus. Showy hardy biennials of easiest culture; admirable for clumps among shrubs or borders. Height, 18 inches.

Hunt's Perfection Mixed .................................................. Pkt., .05

Verbena. The Verbena is one of the most decorative and easily grown bedding plants. If started in heat in March the seedlings begin to bloom in June and continue until frost. Plants raised from seeds are stronger and flower more freely than those grown from cuttings. Half-hardy perennials. Height, 1 foot.

Hybrida—Fine Mixed .................................................. Pkt., .05
Hybrida—Mammoth mixed .................................................. Pkt., .10
Hybrida—Extra selected, dark blue .................................. Pkt., .10
Hybrida Candissima, white .............................................. Pkt., .10

Virginia Creeper (or American Woodbine). Though a common native climber, this is one of the best plants for covering unsightly objects, or it may be easily trained into festoons of exceeding grace and beauty. Pkt., .05

Wild Cucumber. Hardy, vigorous climber, with very pretty seed-pods, large seeds; to be sown in the open ground in autumn. 20 ft.
Pkt., .05

Xeranthemum. Profuse blooming hardy annuals with "Everlasting" flowers; useful for winter bouquets; colors pure white and deep purple. Height, 18 inches.

Finest Double Mixed.................................................. Pkt., .05

Zinnia

Zinnia. The double flowering Zinnias (Zinnia elegans fl. pl.), are among the finest annuals, blooming from July till frost. The flowers are large, handsome, and in a variety of colors. Of easy cultivation in common garden soil. Seed should be started in heat and transplanted. Our seed of these beautiful flowers is saved from the finest collection in Germany.

Single Mixed .................................................. Pkt., .05
Double Mixed .................................................. Pkt., .05
Mixed Flower Seeds for Wild Gardens. A splendid mixture of more than one hundred kinds of flower seeds at a low price. Pkt., .05
Parcel Post Information

Parcel Post rates now apply to all seeds, bulbs and plants and are subject to the same rates as all other merchandise, 1st and 2d Zones include all places within a distance of 150 miles of Lewiston.

ASPARAGUS

German,—Gpargel. French,—Asperge. Spanish,—Esparragos.

One ounce for 60 feet of drill.

A convenient bed is about six feet wide, with a path two feet wide on each side. This will require six rows one foot apart, and a bed of that width 50 feet will be ample for an ordinary family, requiring about one pound of seed. It will require about three years from the time of sowing until the bed is in full bearing, but once established, it is good for twenty years. It should be sown in drills one foot apart, and when the plants are four or five inches high they should be thinned out so that the plants will be nine inches apart from each other in all the rows. Great care must be taken for the first year to keep down all weeds as soon as they appear, else they will choke and destroy the young seedling Asparagus. The deeper the soil and the more manure used, the greater will be the crop.

Conover’s Colossal. The best known, and one of the most desirable sorts. Pkt., .05; oz., .10; ¼ lb., .20; lb., .50

Palmetto. Shoots are very large and light green, also tender and very desirable for the market and home garden. Very quick in growth, with close, round-topped shoots.

Pkt., .05; oz., .10; ¼ lb., .25; lb., .75

Asparagus Roots

A saving of one to two years is effected by planting roots. These offered below are strong, two-year-old roots, and the proper size for testing. These roots are not carried in stock but will be shipped direct from the growers. Prices on the following varieties will be quoted on application.

Columbia, Mammoth White, Conover’s Colossal, Barr’s Mammoth and Palmetto.
BEANS

Dwarf or Bush

German,—Bohnen.  French,—Haricot.
Spanish,—Frijole nano.

One quart to 100 feet in drills or 150 hills; two bushels to the acre in drills.

A succession of sowing can be made from the first week in May until August. Plant in drills about two inches deep, and from eighteen inches to two feet apart, according to the richness of the soil; the poorer the soil the closer they can be planted. The seeds should be dropped about two inches apart.

Add .05 per pt.; .07 per qt., each additional quart add .02 if to be sent by mail.

Improved Golden Wax. Rust proof. An improvement on the old Golden Wax. The pod is somewhat round, meaty and entirely rust proof. Pt., .35; qt., .65

Green Pod Varieties

Stringless Green Pod. The pods are green, not quite as round as Valentine and less curved. The pods are stringless—absolutely—this quality at once placing the variety at the top of the list among table beans. Pt., .35; qt., .65

Long Yellow Six Weeks. Pods are long, flat, straight, green. Pt., .35; qt., .65

Low's Champion. Very productive, with stringless, large green flat pods. Excellent either as a string or shell bean. Pt., .30; qt., .50; pt., $3.50

Dwarf Horticultural. The best shell bean for fine quality.

Old-fashioned Yellow-eye Bean. An excellent field bean and much preferred to the Improved Yellow-eye as a baking bean.

New York Pea Beans
Sulphur Beans

Improved Yellow-eye Bean. An excellent field bean and very productive.

Red Kidney Bean. An easily raised bean and very productive. Also greatly prized by many for baking.

Prices of above on application.

Lima

Burpee's Bush Lima. The only Bush form of the true large Lima. Bushes grow to eighteen inches in height and always erect. Pt., .35; qt., .65

Pole or Running

German—Stangen Bohnen
Spanish—Judias.
French—Haricot a Rames.

One quart to 150 hills; 10 to 12 quarts to the acre in drills.

These are more tender and require rather more care in culture than the Bush Beans, and should be sown two weeks later. They succeed best in sand loam, which should be liberally enriched with short manure in the hills, which are formed, according to the variety, from three to four feet apart. From five to six seeds are planted in each hill, about two inches deep. As the matured bean is used mostly, the season is too short for succession of crops in the North, though it is advantageous to plant succession crops in the Southern states, where the season of growth is often from March to November. Rough cedar or similar poles about seven or eight feet long should be used for Lima Beans to climb on. The poles should be set in the ground at least eighteen inches, so as to prevent being blown over.

Add .05 per pt.; .07 per qt., each additional quart add .02 if to be sent by mail.

Black Wax, or Indian Chief. A superb snap bean; pods yellow and stringless. Pt., .35; qt., .65

Scarlet Runners. Usually cultivated for the beauty of its scarlet flowers. Pkt., .10; ½ pt., .15

Currie's Rust-proof Wax. Pods long, flat and straight, very productive and rust-proof; black seed. Crop failure. Pt., .35; qt., .65

Black German Wax. (Black Seed.) Very early; round, yellow pods; a well-known standard sort. Crop failure. Pt., .35; qt., .65

Improved Golden Wax Beans

This has been an even worse season than last for the grower of Beans and we again have to report a complete failure of many kinds and extremely short crop on most of the others.
King Horticultural, or Old Fashioned Speckled Cranberry. Pods bright carmine color; both beans and pods are much larger than the common kind. Pk., .35; qt., .65

Kentucky Wonder. An excellent green podded variety; enormously productive, the long pods hanging in great clusters along the entire vine. Seed dark brown; entirely stringless.

Pt., .35; qt., .65

Lazy Wife. One of the best of the later green podded pole beans for snaps. The pods borne in large clusters, are five to seven inches long, broad, thick, fleshy and entirely stringless. When young they have a rich, buttery flavor, which is retained until they are nearly ripe. The dry beans are excellent for winter use. Seed white. Pt., .35; qt., .65

Red Cranberry Pole. A popular string or snap bean; very productive with large and tender pod. Pt., .35; qt., .65

Lima, King of The Garden. Heavy cropper—bean and pod very large.

Pt., .35; qt., .65

Crosby’s Egyptian. This variety is as early as the original Egyptian, but by careful selection has been made thicker and of better quality.

Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Detroit Dark Red Turnip. An excellent beet for bunching for market; tops exceptionally small and upright; roots turnip shaped with small tap root. Color of skin dark blood red; flesh bright red. Quality is of the best, sweet and tender. One of the best varieties for the market gardener and the home garden.

Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Dewing’s Early. Of deep red color, smooth and of fine form. One of the leading varieties, both for market and for family use. Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Early Eclipse. Very early, dark-red color, small top, and free from fibrous roots.

Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Edmond’s. This variety is thoroughly fixed and uniform in type. The flesh is deep blood red in color, and exceedingly sweet and tender. It is round, smooth, of good market size, and does not grow over-large.

Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Dirigo Extra Early. A rich, blood-red beet of fine grain and flavor and is earlier than either the Egyptian or the Eclipse.

Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Haskell’s Special Blood Turnip. We have a very fine strain of Blood Turnip Beet, of the Edmond’s type. Very deep red fleshe, so much in demand in all markets.

Pk., .05; oz., .15; ¼ lb., .45; lb., $1.50

Swiss Chard or Silver Sea Kale. Used as greens and the ribs of leaves cooked and served as asparagus.

Pk., .05; oz., .20; ¼ lb., .65; lb., $2.25

MANGEL-WURTZEL AND SUGAR BEETS

Sow in April or May, using eight to twelve pounds to the acre.

Price of all varieties  OZ., .15; ¼ lb., .45; lb., $1.50

Red Giant Eckendorf. Of cylindrical form and grown mostly above the surface. Has been known to yield as high as 58 tons to the acre.

Lane’s White Sugar. One of the best for feeding stock. Very sweet.

Norbiton Giant. A mammoth, long-red variety, enormously productive, and keeps well; good for deep soils.

Golden Tankard. Flesh a deep, rich yellow; very sweet and nutritious. Half long in shape. A very heavy cropper.

Improved Mammoth Long Red. An improvement on the old variety. The roots are very large, uniformly straight and well formed; proportionately thicker, and are deeper colored than the common sort, and with smaller tops.
Mangel Danish Sludstrup. Long, reddish Yellow. Grows well above the ground and easy to pull. More percentage of dry matter than in any known Mangel. Very heavy cropper. Considered by the Danish people the best Mangel in the world.

BRUSSELS SPROUTS

(Species of cabbage; cultivation the same)

German,—Rojen-Kohl.
French,—Chou de Bruxelles.
Spanish,—Berza de Brussels.

One ounce will sow a bed of forty square feet, and produce about 3,000 plants.

This is a delicious vegetable, superior to either borecole or spinach. The small, cabbage-like heads which grow upon the stem are much improved by a moderate frost. Sow in hotbeds in March or April, and in the open ground in May. Cultivate same as broccoli.

Dwarf Improved. Produces excellent, compact sprouts; very sure cropper.

Pkt., .05; oz., .20; ¼ lb., .75

CABBAGE

German,—Kopf-Kohl. French,—Chou Pomme.
Spanish,—Berza.

One ounce of seed produces about 3,000 plants.

Early varieties are grown from seed sown in hotbeds in February or March, only moderate bottom heat being required. Transplant into other frames without much, if any, bottom heat, as soon as the plants show the fourth leaf. In April, or as soon as the ground can be easily worked, set out in rows three feet apart, and about eighteen inches between the plants. The ground should be thoroughly stirred with cultivator and hoed every week till the plants cover the ground. For a fall crop, sow in the open ground in May, in hills the proper distance apart, using a liberal quantity of manure in the hill, besides that which is plowed in; thin out to one good plant in each hill. In the same way crops may be sown to lay in for the winter use, planting seed as late as July 1. Seeds can also be sown in shallow drills when the plants are large enough, can be transplanted, setting the plants in rows three feet apart and two feet apart in the row. If the young plants are troubled with the cabbage fly, sprinkle them with tobacco dust, air-slaked lime, slugshot or wood ashes, while the dew is on them. To keep off the cabbage worm, sprinkle with Dalmatian insect powder or slugshot.

Danish Ball Head

The wide and unfailing popularity of the Danish Ball Head cabbage is simply wonderful. It seems to adapt itself to all soils and conditions.

The leading characteristics of Danish Ball Head cabbage are: First, that it is a sure header; second, that it is of unapproachable solidity and weight; third, that it is an extra good keeper; and fourth, that it is a good seller.

It is a medium to late cabbage, but is generally grown as a late crop. It is sure to head, the heads being round, hard and extremely heavy, though not extra large. It can be grown in close quarters, on account of its compact habit.

Pkt., .10; oz., .40; ¼ lb., $1.50

All Seasons. An early Drumhead, sure heading, solid variety. Desirable for early or fall use.

Pkt., .05; oz., .30; ¼ lb., $1.00

Charleston Wakefield. Grows to a much larger size than the Jersey Wakefield. Very productive and a good shipping variety.

Pkt., .10; oz., .40; ¼ lb., $1.50

Mammoth Rock Red. The largest heading of any of the red sorts, of deep rich color, and excellent quality.

Pkt., .05; oz., .30; ¼ lb., $1.00

Sure Head. A fine variety for main crop. A good shipper and sure header.

Pkt., .05; oz., .30; ¼ lb., $1.00
Danish Summer Ball Head, extra. The heads of this cabbage are of a splendid shape and ready early in the season. It is very early, very large, very firm and heavy.  
Pkt., .10; oz., .40; ¼ lb., $1.50

Danish Roundhead Short-stemmed. This cabbage is recommended as the best ever offered. It embodies all the good qualities which growers ever worked up in qualities, is large, hardy and splendid keeper.  
Pkt., .10; oz., .40; ¼ lb., $1.50

Warren's Stone Mason. An improvement on the Stone Mason Drumhead; heads rounder, firmer and earlier; is an extra good keeper.  
Pkt., .05; oz., .30; ¼ lb., $1.00

Savoy Improved American. The finest flavored of all the cabbage family, large and solid.  
Pkt., .05; oz., .30; ¼ lb., $1.00

Early Winningstadt. An early variety of excellent quality, not as early as the Wakefield. Crop failed.  
Henderson's Early Summer. A standard summer variety. We have the true stock.  
Pkt., .05; oz., .30; ¼ lb., $1.00

Fottlers Early Brunswick. An early fall variety well known and popular.  
Pkt., .05; oz., .30; ¼ lb., $1.00

Early Jersey Wakefield. A standard early variety for home use or market.  
Pkt., .10; oz., .40; ¼ lb., $1.50

Red Dutch for pickling or for salads.  
Pkt., .05; oz., .20; ¼ lb., $1.00

Succession. A sure-headed, long-keeping variety, very similar to All Seasons, but maturing a little later. Heads deep and very firm.  
Pkt., .05; oz., .30; ¼ lb., $1.00

Enkhuizen Glory. A new Holland cabbage which originated at a large seed farm at Enkhuizen, Holland. It is an early cabbage, but still of large size; solid and of the best quality. It is one of the largest early cabbages we have seen, and may be set out as late as the last of July or first of August in this latitude, and will make large, fine heads for late fall or winter use. The great merit of this cabbage lies in the perfect uniformity of its growth. The plants are compact, and have few outside leaves, and can be planted close together, and will produce a very large crop.  
Pkt., .10; oz., .40; ¼ lb., $1.50

CARROT

German,—Rohre.  
French,—Carrotte.

One ounce will sow 100 feet of drill; 3 pounds required for an acre.

Carrots require a very finely pulverized soil to grow them to perfection. A good, light and well-enriched sandy loam is the best for this crop. For field culture, sow in drills 2½ feet apart, so as to cultivate by horse. Market gardeners sow in drills about 15 inches apart, and cultivate by hand. For early crops cover ½ inch deep, and thin to 6 inches apart in the rows; for late, cover ¾ inch deep and thin to 4 inches.
**Cauliflower**

**German,—Blumenkohl**  
**Spanish,—Coliflor**  
**French,—Chou-fleur.**

One ounce of seed will produce 1,500 to 2,000 plants of sown in open ground, or about 3,000 in frames.

To raise good Cauliflower there is nothing so essential to success as good seed. The best Cauliflower seed is very expensive, but it is worth to the grower ten times as much as cheap and carelessly grown seeds. The best results are obtained from using Snowball for main late crop, as well as for early use.

Early Cauliflower are difficult to raise and are not of the best quality, but when the plants are set out in July and the heads form in October, there is no difficulty in getting fine, large heads of first-class quality. The seed should be sown in open ground or cold frames about the middle of May or first of June, on good soil. When plants are large enough, transplant to rich, moist soil. These remarks refer to Snowball or other early kinds. The late kinds must be sown and transplanted earlier.

**Henderson's Early Snowball.** This is undoubtedly the finest ever introduced. It is the earliest and produces beautiful snow white heads of the most delicious flavor. The seed we offer is pure and genuine, and sure to prove satisfactory.  
**Pkt., .05; oz., .20; ¼ lb., .50**

**Extra Selected Dwarf Early Erfurt.** The finest strain of the Erfurt Cauliflower; almost as early as the Snowball; grows about 15 inches high; producing very solid, pure white heads of the very finest quality; seldom fails to form a good sized head.  
**Pkt., .15; oz., .30**

All kinds of Insecticides, Spray Pumps, Power Sprayers, etc., always on hand. Call and examine or write for catalogue and prices.

**Celery**

**German,—Sellerie**  
**French,—Celeri**  
**Spanish,—Apio**

One ounce will produce 3,000 plants.

Sow seed the first or second week in April in hotbed or cold frame. As soon as the plants have attained a height of three inches, transplant, setting them four inches apart. As fall approaches draw earth up to the plants, keeping the stalks well together. When well blanched it is ready for use. Some of the varieties, such as Golden Self-Blanching and White Plume, may be blanched by simply placing a board 12 to 15 inches wide on edge on each side of the row.

**Boston Market.** The best and most popular sort for cultivation.  
**Pkt., .05; oz., .30; ¼ lb., .85**

**Giant Pascal.** A strong grower and wonderful keeper; quality very fine.  
**Pkt., .05; oz., .30; ¼ lb., .85**

**Golden Self-Blanching.** A self-blanching early golden-colored variety that is very popular.  
**Pkt., .10; oz., .50; ¼ lb., $1.75**

**White Plume.** A variety that can be more easily grown than any other, as it does not require high banking to blanch the stalks. Simply earthing up enough to keep the stalks together or by passing a string around each plant is sufficient.  
**Pkt., .05; oz., .30; ¼ lb., .85**

**CORN—Sugar**

**German,—Welfchkorn**  
**Spanish,—Maiz**  
**French,—Mai.**

One quart will plant 200 hills; 1 pk. will plant one acre in hills.

Corn requires a good soil and a warm situation. Commence for first early by planting the early varieties about May 1, and if a continuous supply is wanted all summer, make plantings about two weeks apart from May 1 until the last of July, first planting early varieties, then later ones. Plant in rows 3 feet apart, and make the hills about the same distance apart in the rows. Five kernels in the hills are plenty. Cover about 1 inch deep for early and a little deeper for late. Thin to 3 plants in a hill. Add 5¢ per pt., 7¢ per qt., and for each additional quart to the same address add 2¢, if to be sent by mail.

**Early Red Cory.** This variety is the favorite for first early.  
**Pt., .25; qt., .40; pk., $2.75**

**White Cob Cory.** This is an improvement over the Early Cory as the cob is white which gives it a finer appearance. It is as early as the Early Cory and of excellent quality.  
**Pt., .25; qt., .40; pk., $2.75**

**Crosby's Early.** An early corn of large size and choice quality. It has long been a standard variety.  
**Pt., .30; qt., .50; pk., $3.50**
Country Gentleman. This is the finest of the medium late varieties. The rows are zig-zag with long slender kernels of delicious flavor.  
Pt., 25; qt., 40; pk., $2.75

Black Mexican. This corn when in condition for the table cooks remarkably white; but the ripe grain is black or bluish-black. It is unsurpassed by none in tenderness.  
Pt., 25; qt., 40; pk., $2.75

Golden Bantam. The fact that the grains of this variety are yellow is an indication of hardiness and its value for early planting and early maturity. It is a rapid grower, and produces ears measuring about 5 inches, but the smallness of ears is fully made up by the deliciously sweet flavor and tender quality of the corn when cooked. It is a fine variety for the home garden.  
Pt., 35; qt., .65

FIELD AND FODDER CORN

Prices will be quoted on application on the following corns. Please give the amount desired as well as the kind in all cases.

Southern White. A white variety that no silo owner or dairy farmer should overlook. It grows 12 to 16 feet high; has broad foliage and tender stocks. There is no better fodder to keep up the flow of milk during hot weather when the grass is burned up. Heavy cropper.

Leaming. An early, very heavy long-eared corn. Grows to medium height with large amount of foliage. One of the best ensilage corns very much relished by stock. Cob red, grain yellow.

Red Cob. A very large-growing white dent corn, with red cob. Fodder sweet, juicy and tender. Very popular in northern dairy districts.

Sanford. A well-known variety, adapted to the whole of New England. Kernels silvery white flint color; large and broad. An excellent fodder and ensilage corn. Crop Failure.

Early Canada. An eight-rowed, yellow flint variety with small cob and deep grain. This is one of the earliest and best and seldom fails to produce a crop. The Early Canada seed we have to offer was grown in this State.

Longfellow. An eight-rowed, yellow-flint sort; ears average 10 to 15 inches. Large kernels and small cob. Particularly adapted to New England.

Haskell's Prizetaker Corn

This corn has fully maintained its past record as being the very best flint corn grown.

This corn showed a test of 12.2 per cent. protein, 5.51 fat and 78.56 carbohydrates, which makes it the highest test corn from a good food value of any of the known flints or dents.

Golden Bantam

Stowell's Evergreen. The best late corn for all purposes. It has been a leader for many years as a main crop variety and is unexcelled as a market corn.

Pt., .25; qt., .40; pk., $2.75

Haskell's Prizetaker Corn

On a recent test of this corn, 70 pounds of ears made 63 pounds of shelled corn.

This also makes an exceptionally fine corn for an ensilage corn as it grows when planted for ensilage very rank, being 10 to 12 feet tall, and the stalks are very fine grain, making a much more profitable corn for ensilage than any of the dent varieties. We have this corn both on the cob and shelled.
CHERVIL
One ounce will sow about 300 feet of drill.
Cultivated like parsley. Sow thickly in May, in drills half an inch deep, one foot apart. Use while the leaves are young and tender.
Curlad Chervil. The young leaves are used for garnishing, and flavoring soups. Pkt., .05; oz., .15; ¼ lb., .35

CRESS OR PEPPERGRASS
German,—Areffe. French,—Cresson
Spanish,—Masuerzo
One ounce will sow 16 square feet, or 150 feet of drill.
A popular salad, which should be sown early in the spring—very thickly in shallow drills—and at short intervals, for success, as it soon runs to seed.
Extra Curled. A small plant, having a fine pungent flavor, and used as a salad; may be cut two or three times. Pkt., .05; oz., .15; ¼ lb., .35
True Water Cress. Grows along the banks of ponds and streams, and is easily introduced, wholly unlike Extra Curled; leaves are quite large and thick; a fine salad, sold in immense quantities in the large markets in spring. Pkt., .10; oz., .40; ¼ lb., $1.25

CUCUMBER
German,—Gurfe. French,—Concombre
Spanish,—Pepino
One ounce will plant 50 hills; 2 pounds will plant an acre.
Culture.—For earliest use, sow the seed in the hotbed or greenhouse in February or March, in warm loam, where the temperature is about 90 degrees. Cover half an inch deep, and when the plants are of fair size transplant into hills (made in the greenhouse) four plants in a hill, so that when the weather permits the whole hill can be moved to the open ground by means of tins made for that purpose. Plant for general use in the open ground about June 1, in hills 6 feet each way, and thin to three plants in a hill. Fine old manure (about six cords per acre) is sufficient; or, better still, plant on land from which a crop has been taken, and which was heavily manured for that crop.
Davis Perfect. As now selected, this popular new variety is well worthy of praise. The long, even fruits are of fine form, with an intensely dark rich green skin. With very few seeds the solid white flesh is of superb quality for slicing. So handsome and regular are the fruits that they bring an extra price on market—often being taken for “hot-house grown.” The vines are of strong growth and quite prolific. Pkt., .05; oz., .10; ¼ lb., .35
Extra Early Russian. Earliest variety known; hardy and productive. Fruit very small and quality fine for pickling or slicing. Pkt., .05; oz., .10; ¼ lb., .35
Early Cluster. Fruit borne in pairs; light green; a great bearer. Pkt., .05; oz., .10; ¼ lb., .35
Early Frame or Short Green. An excellent sort, both for table use and for pickling. Plants very vigorous and productive. Fruit straight, a little smaller at the end, bright green, lighter at the blossom end. Comes into use a little later than the Early Cluster and keeps green a long time. Our stock is very superior. Pkt., .05; oz., .10; ¼ lb., .35
Boston Pickling. Fruit short, smooth and pointed at each end, bright green and a great yielder; one of the best pickling. Pkt., .05; oz., .10; ¼ lb., .35
White Spine Improved. The most popular strain of White Spine, and for general out-door culture, the best. Pkt., .05; oz., .10; ¼ lb., .35
Long Green Improved. Fine for pickling when small; good for table use when about half grown. Pkt., .05; oz., .10; ¼ lb., .35

White Spine Cucumber
Japanese Climbing. Vines are extra strong and foliage much more vigorous than other kinds, and being a climbing sort, can be grown on trellises, etc., saving much valuable space in small gardens. It is very prolific, from forty to fifty cucumbers having been counted on single plants. Fruit cylindrical, about ten inches long, thick and of fine flavor.

Pkt., .05; oz., .15; ¼ lb., .50

DANDELION
German,—Lowenzahn.
French,—Pissenlit.
Spanish,—Amargon.

One ounce will sow 100 feet of drill.
The Dandelion resembles endive, and affords one of the earliest as well as one of the most healthful spring greens. Sow as early as the weather will permit, in good, well-enriched soil, in rows 12 inches apart, covering seed ¼ of an inch deep, and firming the soil well over them. Thin to two or three inches apart in the rows; by so doing the roots will be larger and a great amount of time will be saved the next spring in trimming or gathering the crop. One pound per acre is sufficient.

Improved Thick-Leaved. Cultivate for spring greens; an immense improvement on the common dandelion, both in size and thickness of its leaves and fine flavor, being far less bitter.

Pkt., .10; oz., .50; ¼ lb., $1.75

EGGPLANT
German,—Gierpanze.
French,—Aubergine.
Spanish,—Berengena.

The Eggplant will thrive well in any good garden soil, but will repay good treatment. The seeds should be sown in hotbed or warm greenhouse in March or April, and when about an inch high potted in two-inch pots. Plant about June 1, two and one-half feet apart.

New York Improved Purple. The leading market variety, and undoubtedly the best for size, quality and productiveness.

Pkt., .05; oz., .50; ¼ lb., .50

ENDIVE
German,—Gendive.
French,—Chicoree.
Spanish,—Endivia.

One of the most refreshing and attractive of all autumn and winter salads. Sow seed from the middle of June until the end of August.

Green Curled. Beautifully curled, tender and crisp.

Pkt., .05; oz., .15; ¼ lb., .50

Mass Curled. More finely curled, and a heavier and more dense plant than Green Curled.

Pkt., .05; oz., .15; ¼ lb., .50

BROAD-LEAVED BATAVIAN (ESCAROLIC). This variety is chiefly used in soups and stews; requires to be tied up in blanching.

Pkt., .05; oz., .15; ¼ lb., .50

KALE OR BORECOLE
German,—Blatter-Kohl.
French,—Chou Vert.
Spanish,—Breton.

One ounce will produce 3,000 plants.

Sow from the middle of April to the beginning of May in prepared beds; transplant in June, and treat in the same manner as for cabbage. Of all the cabbage tribe this is the most tender and delicate. The varieties are all extremely hardy, and are best when touched by frost.

Dwarf German Purple, or Brown Curled. Very hard and of fine quality; so handsome that it is frequently grown for ornament.

Pkt., .05; oz., .15; ¼ lb., .40

Dwarf Green Curled Scotch. Rarely exceeding 18 inches in height, but spreading out under good cultivation to 3 feet in diameter; leaves beautifully curled and bright green.

Pkt., .05; oz., .15; ¼ lb., .40

Tall Green Curled Scotch. Grows about two feet high; leaves dark green, curled and wrinkled; very hardy, and is improved by a light frost.

Pkt., .05; oz., .15; ¼ lb., .40

KOHL RABI
German,—Rohl-Rab.
French,—Chou-Rave.
Spanish,—Col de nabo.

One ounce will sow 200 feet of drill.

This vegetable, the popularity of which is rapidly increasing, combines the virtues of the turnip and cabbage, but excels both in nutritive, hardy and productive qualities. The seed may be sown in June in rows 18 inches apart, and the plants thinned out to eight or ten inches in the rows.

Early White Vienna. Best for general table use; flesh tender and white.

Pkt., .05; oz., .25; ¼ lb., .60
Purple Vienna. A little later than the White; color bluish purple.  

Pkt., .05; oz., .25; ¼ lb., .60

Large Green or White. Good for table and also for feeding stock.  

Pkt., .05; oz., .25; ¼ lb., .60

**LEEK**

German,—Lanch.  
Spanish,—Puerro.  
French,—Poireau.

*One ounce will plant 200 feet of drill.*

The leek is very hardy and easily cultivated; it succeeds best in a light but well-enriched soil. Sow as early in the spring as practical in drills one inch deep and one foot apart. When six or eight inches high they may be transplanted in rows ten inches apart each way as deep as possible, that the neck, being covered, may be blanched.

*London Flag.* Very popular with market gardeners.  

Pkt., .05; oz., .15; ¼ lb., .50

*American Flag.*  

Pkt., .50; oz., .15; ¼ lb., .50

**LETTUCE**

German,—Lattich.  
Spanish,—Lechuga.  
French,—Laitue.

*One ounce will sow 100 square feet, or 120 feet of drill.*

Requires a rich, moist soil, and to be crisp and tender needs to be grown in cool weather. For winter use, sow in hotbeds every two weeks, at the rate of one ounce of seed to four sashes (a sash is three feet long by six feet wide); cover very lightly, and transplant, first to three inches apart each way, afterward to eight inches. For garden or field, sow in rows, and cover, one-fourth of an inch deep, and thin out to twelve inches apart in the rows. For New England the White Seeded Tennisball for cultivation under glass, and the Black Seeded Tennisball for outdoor use, are the standard varieties.

*Big Boston.* A most desirable variety, either for forcing in cold frames or open ground planting; always produces large, solid, saleable ends.  

Pkt., .05; oz., .15; ¼ lb., .40

*Boston Curled.* Of ordinary quality but great beauty; highly ornamental in growth with its frilled leaves.  

Pkt., .05; oz., .15; ¼ lb., .40

*Prize-Head Early.* Leaves green and red, very thin, crisp and tender; one of the best for private use.  

Pkt., .05; oz., .15; ¼ lb., .40

*Tennisball Black-Seeded.* A very popular sort for open-ground culture; forms a handsome head, and is crisp and tender.  

Pkt., .05; oz., .15; ¼ lb., .40

*Tennisball, White-Seeded.* Extensively grown for forcing and heading under glass; heads firm and good. Crisp.  

Pkt., .05; oz., .15; ¼ lb., .40

*Simpson Early Curled (White Seed).* A leading early sort for forcing or open ground.  

Pkt., .05; oz., .15; ¼ lb., .40

*Tomhannock.* A variety with upright leaves, beautifully wrinkled, edges of outer leaves have reddish tinge; one of the best.  

Pkt., .05; oz., .15; ¼ lb., .40

*Boston Market.* One of the best for forcing under glass, as well as for outside use; forms fair-sized heads, edge of leaves slightly tinged with red.  

Pkt., .05; oz., .15; ¼ lb., .40

*May King.* Probably the finest all-seasons lettuce yet introduced. It is very early and hard, and will stand cold, damp weather better than many varieties. Planted out of doors or under glass it will produce fine solid heads much sooner than any other variety. Outer leaves are yellowish green, tinged with brown, while the inside is a rich yellow.  

Pkt., .05; oz., .15; ¼ lb., .40

*Grand Rapids.* An excellent forcing variety with loose heads and of good size and form.  

Pkt., .05; oz., .15; ¼ lb., .40

*Brown Dutch.* Leaves large, thick, green, tinged with brown; forms large, solid heads; exceedingly hardy.  

Pkt., .05; oz., .15; ¼ lb., .40

*Hanson.* Large, solid heads; tender, crisp, and of a fine flavor.  

Pkt., .05; oz., .15; ¼ lb., .40

*White Paris Cos.* Has long, narrow, upright leaves; does not head, but when tied up blanches very nicely.  

Pkt., .05; oz., .15; lb., .40
**MELON, MUSK**

German.—Melone.  
French,—Melon  
Spanish,—Melon.

One ounce will plant about 50 hills; (2 to 3 pounds in hills) per acre.

Melons thrive best in a light, rich soil. Plant early in May, when the ground has become warm and dry, in hills six feet apart each way for Muskmelons; eight feet for Watermelons. Previous to sowing the seed mix a few shovelfuls of well-rotted manure in each hill, and plant in each twelve to fifteen seeds; after all danger of bugs is over, thin out to three plants per hill. When about one foot long, pinch off the tips to make them branch, as it strengthens the growth of the vines and makes the fruit mature earlier. Feed liquid manure occasionally. A few hills for early use may be had by sowing on pieces of sod in a hotbed, and when warm enough transplant to open ground.

---

**MELON, WATER**

German,—Waffermelon.  
Spanish,—Zandia.  
French,—Melon d’Eau.

One ounce will plant 50 hills.

**Prices on all varieties of Watermelons as follows:** .05 per pkt.; .10 per oz.; .50 lb., .50

**Citron for Preserves.** The old and well-known Preserving Citron; seeds red.

**New Florida Favorite.** An improvement on the old Florida Favorite, growing to double the size and more prolific. Its perfect shape, bright red crisp flesh, and delicious flavor, make it one of the best melons grown.

**Phinney’s Early.** This is another very early melon, earlier than the preceding; it is hardy and a sure cropper and extensively cultivated in the North.

**Peerless or Ice Cream.** Very early, flesh firm and sugary.

**Cuban Queen.** Very productive; flesh bright red, very solid, crispy and sugary.

---

**MUSTARD**

German,—Senf.  
Spanish,—Mostaza.  
French,—Moutarde.

One ounce will sow 25 feet of drill.

As an ingredient, the green Mustard imparts a delightful pungent flavor to the various forms of prepared salads. For early crops the seed may be sown in a hotbed in March, and for general crop at frequent intervals through the spring, in drills from eight to twelve inches apart.

**White London.** Considered the best for salads and spinach; leaves light green. It is best when about four inches high.  
**Pkt., .05; oz., .10; ¼ lb., .15**

**Brown or Black.**  
**Pkt., .05; oz., .10; ¼ lb., .15**

---

**ONION**

Select the cleanest, richest land on the farm for the Onion crop. If Onions are grown on the land the previous year, so much the better, but any good corn or potato land will do. Broadcast fifteen to twenty cords of fine, well-rotted manure to the acre and plow not deeper than six inches; harrow thoroughly, cross plow, and harrow again, after which hand rake with wood rake and remove stones.
and rubbish. Sow four to five pounds of seed per acre in drills twelve to fourteen inches apart and about one-half inch deep. See that the Seed Drill is equipped with a good roller, that will press the earth firmly upon the seed. Sow as early in the spring as the ground can be properly worked. There is seldom necessity for thinning Onions if the land has been properly manured and seeded. After the Onions are three to four inches high, an application of about five hundred pounds to the acre of fertilizer, rich in available nitrogen, strewn between the rows, will be very beneficial. Keep the Onions growing by never allowing the weeds to get ahead and the acre should produce in a good average season, five hundred to seven hundred bushels. When the tops are down, the Onions may be pulled and left on the ground, and should be frequently turned with a wooden rake until tops are dried.

Yellow Globe Danvers

Yellow Globe Danvers. Undoubtedly the best known and most popular of all onions; the earliest yellow variety; is entirely free from stiff necks. Globular in shape; has a small top. It is the most productive onion grown.

Pkt., .10; oz., .40; ¼ lb., $1.15

Large Red Wethersfield. We have a very fine and select strain of this sort. Color is deep purplish red, flesh white, moderately grained and very firm. Yields enormously and is one of the best winter keeping onions.

Pkt., .10; oz., .40; ¼ lb., $1.15

White Portugal, or Silverskin. A large flat, white onion of mild and pleasant flavor; hard and fine grained, and a good keeper. Extensively sown for sets, and is also largely grown for pickling.

Pkt., .10; oz., .40; ¼ lb., $1.15

Southport Red Globe. The onions from Southport, Ct., generally command an extra price in New York markets, because of their beautiful shape and color, due partly to the variety grown and partly to the favorable soil and the extra care taken in handling the crop.

Pkt., .10; oz., .40; ¼ lb., $1.15

Prize-Taker. A Globe-shaped variety of delicate straw color, growing to a very large size. It ripens up hard and firm, the flesh being pure white. Fine grained and of mild, fine, delicate flavor.

Pkt., .10; oz., .40; ¼ lb., $1.15

ONION SETS

Potato Onion Sets........................................ qt., .30; pk., $1.75
Red Bottom Sets ........................................... qt., .30; pk., 1.75
White Bottom Sets ......................................... qt., .30; pk., 1.75
Yellow Bottom Sets ........................................ qt., .30; pk., 1.75
Top Sets .................................................... qt., .30; pk., 1.75

Onion Sets should be planted as early in the spring as convenient to obtain early green onions, but they may be set at any time up to June 1. Set in rows a foot apart, and three to four inches between them in the row. Any good soil will suit them. When grown in quantities, high cultivation is given in order to forward the crop for an early market. They are ready for use as soon as the bulbs begin to be of fair size. Those not used in green condition will ripen early in July and make nice onions. Potato and Top onions are grown from bulbs only.

Owing to the conditions which existed at the time of harvesting Onion Sets this past season, it is extremely doubtful if we have any sets to offer, the crop being an almost entire failure.

Parsley

German,—Peterfile.  French,—Persil.

Spanish,—Perejil.

One ounce for 150 feet of drill.

Parsley succeeds best in rich, mellow soil. As the seed germinates very slowly, it should be sown early in spring, previously soaking the seed for a few hours in tepid water. Sow thickly in rows a foot apart and half an inch deep.

Champion Moss Curled. The standard variety.

Pkt., .05; oz., .15; ¼ lb., .35

Buy one of our Columbia Garden Seeders with fertilizer attachment. You can save the price of it in one season in time and seed. It is the most economical of seeders made. Send for catalog and prices.
PEAS

German,—Erbren
Spanish,—Guizante.

One quart for 75 feet of drill; one to two bushels in drills for an acre.

Peas come earliest to maturity in light, rich soil. For general crop, a deep loam or a soil strongly inclining to clay is best. For early crops decomposed leaves or leaf-mold should be used; or, if the soil is very poor, strong manure may be used. For general crops a good dressing should be applied, and for the dwarf-growing kinds the soil can hardly be too rich. When grown as a market crop, peas are never staked; for private use they are generally sown in double rows, and the tall varieties staked up by brush. For an early crop sow as soon as the ground can be worked, and make repeated sowings every two weeks for succession. After the first of June sowing should be discontinued until the middle of August, when a good crop may sometimes be secured by sowing an extra-early sort for fall use.

If sent by mail add .05 per pt.; .07 per qt.; and for each additional qt. to same address add .02.

All marked thus (*) indicate wrinkled varieties.

Extra Early Dwarf Varieties

*Bliss American Wonder. An old variety, but still highly prized for its flavor and quality. Of dwarf, robust habit, growing twelve to fifteen inches in height, and bearing an abundance of good-sized, well-filled pods.

Pt., .30; qt., .50; pk., $3.25

*Sutton's Excelsior. Ripens early on vines fourteen to sixteen inches high, covered with a great abundance of long, straight broad pods of a pale green color. Price:

Pt., .30; qt., .50; pk., $3.25

*Premium Gem. A fine flavored dwarf, wrinkled variety; height, eighteen inches. Pt., .30; qt., .50; pk., $3.25

*Nott's Excelsior. This is the earliest dwarf wrinkled pea. The plant is dwarf and needs no support. The pods are of good size and well filled with large peas of the finest quality. It is as early as the American Wonder, while the vines are much more productive and the pods of larger size. There is no better early dwarf pea. Fifteen inches.

Pt., .30; qt., .50; pk., $3.15

Extra Early Variety Not Dwarf

Alaska. An extra early round pea bearing pods of a dark green color; two feet. Pt., .30; qt., .50; pk., $3.25

*Gradus, or Prosperity. No new variety of peas has ever met with such favor and sale as the "Gradus" has since its introduction in America several years ago. It combines the finest quality with extreme earliness, and is also productive, bearing pods fully as large as Telephone. The color of the shelled peas is a beautiful light green, which color they retain after being cooked; the quality and flavor are delicious, and the peas remain tender and sweet for a long time.

Pt., .30; qt., .50; pk., $3.25

*Thomas Laxton. One of the very best of the tall growing, large pod, early peas. The plant is a very hardy and strong grower, producing extra large pods in abundance. The quality is delicious, and cannot be surpassed by any other variety. The "Thomas Laxton" will mature nearly as early as any of the extra early smooth peas, and being a wrinkled sort is much sweeter. Pt., .30; qt., .50; pk., $3.25

Early Morn.

Second Early Varieties

*Heroine. One of the very best late kinds. Very long
pods well filled with deliciously sweet dark green peas
Two feet.

*Telephone. A pea of the finest quality, sweet and delicious. Medium late, growing four feet tall with pods of the largest size.

*Yorkshire Hero. Bears large, well filled pods on stocky, vigorous vines. A first-class late pea. Two feet.

*Bliss Everbearing. Medium late and very productive.

*Haskell's Dark Green Pod Peas. Immense pods of the style of the Telephone. A very superior wrinkled pea of quick and robust habit of growth. Pods are very deep green, averaging five to six inches in length and are borne in great abundance. The peas have a peculiarly pleasing flavor sure to satisfy all lovers of the most delicious vegetable. Haskell's Dark Green Pod is a medium late variety growing from three and one-half to four feet in height.

*Duke of Albany or American Champion. Very fine, large pods, and peas of finest quality. Medium late; three feet.

*Mammoth Melting Sugar. (Edible stock.) Large, broad pods, very brittle and entirely stringless. Height four feet.

White Marrowfat. A good late sort. Cultivated very extensively for the summer crop.

Black-Eyed Marrowfat. An old and standard late variety for garden or field use.

Canada Field. Seeds small white; for field culture only; largely used for sowing among oats. Price on application.

PEPPER

German,—Pfeffer. 
Spanish,—Pimiento.

One ounce will produce 2,000 plants.

Grown largely for pickles. Sow in hotbeds early in April, and transplant to the open ground when the weather is favorable. They should be planted in warm, mellow soil in rows 18 inches apart. They may also be sown in the open ground when danger of frost is past.

Large Bell, or Bull Nose. A favorite and well-known pickling sort. Is early, large, mild and thick skinned.

Long Red Cayenne. A small, long, bright red sort, very productive; extremely strong and pungent.

PUMPKIN

German,—Kurbis. 
Spanish,—Calabaza.

One ounce will plant 20 hills.

Pumpkins are grown chiefly as food for stock. The usual method of planting is to scatter a few seeds at intervals in the hills when planting Indian corn; in this way good crops of pumpkins are secured with slight labor and expense, and make a valuable addition to the season's crops.

Connecticut Field. The common yellow pumpkin, grown chiefly for feeding stock.

Large Cheese or Kentucky Field. A most popular variety. Fruit flattened, the diameter being two or three times more than the length.

Sweet or Sugar. A small variety, fine-grained and sweet; the best for table use.

PARSNIP

German,—Pastinake. 
Spanish,—Pastinaca.

One oz. for 150 feet of drill; five pounds in drills for an acre.

Sow in drills as early in spring as the weather will admit, fifteen inches apart, covering half an inch deep. When well up thin out to five or six inches apart in the rows. Unlike carrots, they are improved by frost, and it is usual to take up in fall a certain quantity for winter use, leaving the rest in the ground till spring, to be dug as required.

Prices on all varieties of parsnips as follows:

*Abbott's Improved Hollow Crown. Smooth and quite large; fine sort.

Guernsey. Roots not quite so long as Hollow Crown, but of greater diameter and more easily gathered.

Long Smooth. As name implies, a very smooth, free from roots, and a general favorite.
RADISH

German.—Rettig, Rabies.
Spanish.—Rabano.
French.—Radis, Rave, Petite Rave.

One ounce will sow 100 feet of drill.

Culture. The soil for Radishes should be very rich, light and mellow, well broken by digging as their tender and mild qualities depend very much upon their rapid growth. For very early use sow in hotbeds in February and March and in the open air as soon as the ground can be worked, at intervals of ten or twelve days for a succession as long as they may be wanted. The winter varieties should be sown in August, lifted before severe frost, and stored in the cellar.

Early Scarlet Turnip Radish

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Early Scarlet Turnip. A well known and popular variety. Small top of quick growth, mild and crisp.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Non Plus Ultra. One of the earliest forcing radishes, being ready for the table in three weeks from planting.

Roots round and bright scarlet, crisp and delicate.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

China Rose. Bright rose-colored skin; flesh white and quality excellent; one of the best for fall and winter use.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Long White Vienna. Of rapid growth and beautiful shape; skin and flesh snow-white. The finest of long white radishes.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Long Black Spanish. Long, black, flesh white and slightly pungent; one of the latest and hardiest.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Round Black Spanish. Skin black; flesh fleshy and piquant flavor.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Early Scarlet Turnip, White Tipped. One of the handsomest of the turnip radishes and a great favorite in many large markets for early planting outdoors. It is but little later than the White Tipped Forcing, and will give entire satisfaction where extreme earliness is not the primary object. Roots slightly flattened on the under side; color, very deep scarlet with a white tip; flesh white and of the best quality.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Long Scarlet. Short top. The standard variety of the long sorts, used either for forcing or open culture; six or seven inches long.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

Chartier. Decidedly distinct in appearance from any radish in cultivation. The color at the top being crimson, running into pink about the middle, and from thence downward it is a pure waxy white. It will attain a very large size before it becomes unfit for the table.

Pkt., 05; oz., .15; ¼ lb., .45; lb., $1.50

SALSIFY OR OYSTER PLANT

German.—Bockshart.
Spanish.—Ostra vegetal.

One ounce will sow 50 feet of drill.

Culture. Sow the seed in light, deep soil, early in the spring, in drills twelve inches apart and one inch deep, thinning out the young plants to four or five inches. The roots will be ready for use in October, when a supply should be taken up and stored, like carrots. Those remaining will suffer no injury by being left in the ground till spring but should be dug up before commencing their growth.

Mammoth Sandwich Island. We consider this the largest and most profitable salsify in cultivation; roots are two to three times the size of the ordinary salsify and of more agreeable flavor. It is pure white in color and invaluable to market gardeners.

Pkt., 05; oz., .25; ¼ lb., .75

SPINACH

German.—Spinat.
Spanish.—Espinaca.

One ounce for 100 feet of drill; 10 to 12 pounds in drills for an acre.

This is a very important crop in our market gardens, and is one of the most easily managed of all vegetables, re-
quiring but little culture, and may be had fit for use the entire season. The main crop is sown in September. It is sometimes covered up in exposed places with straw or salt hay during winter, which prevents it from being cut with frost; but in sheltered fields there is no necessity for covering. For summer use it may be sown at intervals of two or three weeks from April to August. Spinach is best developed and most tender when grown in rich soil.

Prices on all varieties as follows:

Pkt., .05; oz., .15; ¼ lb., 50; lb., $1.75

Giant Thick Leaf. This variety gives the best results. The leaves are large, thick and somewhat crumpled, and it is equally good for spring or autumn sowing.

New Zealand. A valuable variety for the garden as it produces the thick, tender leaves throughout the summer. Grows very large and luxuriantly in warm, rich soil.

Long Standing Thick Leaved. Stands longest before running to seed; dark green.

SUNFLOWER

Mammoth Russian. The standard large-growing variety, which is used largely for feeding poultry.

Pkt., .05; ¼ lb., 10; lb., 20

Dwarf Champion. Dwarf and strong habit of growth; very solid and of extra quality.

Pkt., .05; oz., .30; ¼ lb., $1.00

Livingston’s Favorite. Smoother than the Paragon, is a darker red than the Perfection; ripens evenly, and is as early as any good variety. Pkt., .05; oz., .30; ¼ lb., $1.00

Livingston’s Beauty. Very glossy, crimson in color, slight tinge of purple; early; free from rot; skin tough, bears handling remarkably well.

Pkt., .05; oz., .30; ¼ lb., $1.00

Ponderosa. Very large, solid and of a good flavor. Specimens have been grown to weigh four pounds. Bright red. Very few seeds. Pkt., .05; oz., .30; ¼ lb., $1.00

Stone. Fruit very large and deep; bright scarlet, smooth, ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed, of the finest quality; one of the best for family use and for canneries. Late.

Pkt., .05; oz., .30; ¼ lb., $1.00

Chalk’s Early Jewel. This is a very productive variety. Ripens nearly as early as Spark’s Earliana, but is more desirable for home use as the fruits are thicker through and more solid; borne in large clusters. Color bright scarlet and quality good.

Pkt., .05; oz., .30; ¼ lb., $1.00

For ordinary plants, sow the seed early in March, and transplant, once in the hotbed and from hotbed into cold frames about four inches apart. The last of May they will be ready for the open ground where the Dwarf varieties should be planted 3½ feet apart and the spreading varieties 4 to 4½ feet apart.

Earliana. It is remarkable for its earliness, very large size, handsome shape and bright red color. Its solidity and fine qualities are equal to the best medium and late sorts.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75
Essex. Hybrid. Color bright pink; large size, solid, rich flavored; very productive; fine market variety.

Pkt., .05; oz., .30; ½ lb., $1.00

June Pink. An early variety, similar in habit to the famous Earliana, differing only in its color, which is pink instead of red. Early, blight resisting, long and heavy yielding. An excellent shipper on account of its reasonably tough skin.

Pkt., .05; oz., .30; ½ lb., $1.00

Matchless. Very large, smooth, solid and fine flavor. Cardinal red.

Pkt., .05; oz., .30; ½ lb., $1.00

SQUASH

German,—Kurbiss. French,—Courge. Spanish,—Calabaza.

One ounce Early will plant 50 hills; one ounce Marrow, 25 hills.

Culture. The plants are very tender and sensitive to cold, and planting must be delayed until settled warm weather. The general principles of culture are the same as those given for cucumbers and melons, but the plants are less particular as to soil. The summer varieties should be planted four feet apart each way, and the winter sorts eight feet. Three plants are sufficient for a hill. Care should be taken not to break the stems from the squashes intended for winter use, as the slightest injury will increase the liability to decay.

Improved Hubbard. The well-known and standard late variety; our strain is excellent.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Golden Hubbard. A genuine Hubbard Squash except in color, which is a bright red, quality excellent.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Giant Summer Crookneck. Double the size of an ordinary Crookneck and very warty, but similar in other respects. Their handsome appearance commands an extra price in the market.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Winter Crookneck. An excellent keeping Crookneck variety, lasting several months. Yellow skin, and a well-known squash.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Delicious. We have found in this squash all that the originator claims for it. It is the driest, sweetest and finest flavored squash we have ever tasted. A fall and winter squash and is a good keeper.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Bay State. Has a hard green shell; good for fall and winter use.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Boston Marrow. Fine fall variety; oval bright orange; flesh yellow and firm; best for pies, and also for canning.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Improved Marblehead. Resembles the Hubbard but is earlier; has a gray, hard shell; a very popular winter sort.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Early White Bush Scalloped. A standard summer variety; good either for home or market garden.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

Essex Hybrid, or Hard-Shelled Turban. A standard winter sort; flesh a trifle darker than the Hubbard; an excellent keeper.

Pkg., .05; oz., .15; ½ lb., .40; lb., $1.50

TOBACCO

Connecticut Seed Leaf. Best adapted for the climate of the Northern and Middle States.

Pkt., .05; oz., .30

TURNIP

German,—Steckrube.

Spanish,—Nabo Comun.

Turnips may be sown at all seasons from April to August in our climate, although those will be the best which are sown very early in spring for summer crops, and early in August for a fall and winter crop. A light soil, well manured the previous year, is the best, a few hundred pounds per acre of quick-acting fertilizer will have a tendency to make the roots smooth, and to make the rapid growth so essential in producing sweet and palatable turnips.
**Extra Early Purple Top Milan (Flat).** The earliest turnip in cultivation and a splendid variety; favorite with gardeners who want first turnips in market. Bulb white, flat, of medium size, with a bright purple top; one of the sweetest and finest flavored of summer sorts.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**Extra Early White Milan.** This is one of our most popular turnips for spring sowing. It is a splendid extra early turnip in which the extreme earliness, small top and tap-root of the Purple Top Milan is united with clear white skin and flesh.  

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**Purple Top Strap Leaf.** Rapid grower and mild flavor. The most popular variety for early use, either for the table or stock.

Pkt., .05; oz., .10; ¼ lb., .35; lb., $1.25

**Yellow Stone.** A very popular yellow-fleshed variety; fine for table use. Flesh very firm, tender, sweet and fine flavored; an excellent keeper.

Pkt., .05; oz., .10; ¼ lb., .35; lb., $1.25

**White Six Weeks.** Very early, white and sweet. An excellent early table variety.

Pkt., .05; oz., .10; ¼ lb., .35; lb., $1.25

**White Egg.** Belongs to the class of quick-growing fall turnips, and for this purpose should be sown in this latitude between August 1 and 10. Its shape is nearly oval or egg, as its name would indicate.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

Ruta Bagas, or Swedes, should be planted from the last of June to about July 10, as they require more time in which to mature than the Early or Strap Leaf varieties. Newly-turned soil will produce the sweetest and smoothest turnips.

**Ruta Baga or Swedish Turnip**

*Rutabaga Bangholm.* Oblong, globular shaped, with very small neck, yellow flesh, very dark purple top, superior to all other Swedes. One of the very heaviest croppers.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**Long Island Purple.** Undoubtedly the finest variety of purple-top Ruta Baga. Leaves few and small; bulbs fine shaped with very short, small necks; purple crown skin and flesh bright yellow, solid, sweet and mild flavor.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**White Sweet German.** Sweet, and fine flavor. Good keeper.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**Imperial Hardy Swede.** Claimed by many to be the best Swede turnip grown. Bulb of large size with purple crown; flesh yellow; very smooth and heavy cropper.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**Skirving's Purple Top.** Well-known yellow fleshed variety of large size and fine quality; for stock or table.

Pkt., .05; oz., .15; ¼ lb., .50; lb., $1.75

**SWEET POT AND MEDICINAL HERBS**

These are of easy cultivation. As a rule it is best to cut herbs when in flower, wilt in the sun and thoroughly dry in the shade.

**Anise.** Hardy Annual  
**Balm.** Hardy Herbaceous perennial  
**Caraway.** Hardy bi-annual  
**Coriander.** Hardy annual  
**Catnip.** Perennial  
**Dill.** Biennial  
**Horehound.** Perennial  
**Marjoram.** Sweet, annual  
**Rosemary.** Perennial  
**Rue.** Perennial  
**Sage.** Hardy perennial  
**Saffron.** Annual  
**Summer Savory.** Hardy annual  
**Thyme.** Hardy perennial  
**Winter Savory.** Perennial  
**Wormwood.** Perennial

**VEGETABLE AND FLOWER PLANTS**

We have in their season a choice assortment of both vegetable and flower plants.

**Tomato Plants.** Essex Hybrid. Dwarf Champion, Chalk's Jewel, Earlina, etc.

**Cabbage Plants.** All Seasons, Stone Mason, Drumhead, Danish Ball Head, Early Summer, etc.

**Cauliflower.** Snowball.

**Celery.** Giant Pascal, Boston Market, White Plume.

**Flower Plants.** Pansies, Geraniums, Verbenas, Stocks, Salvia, Asters.

Our Plants are all grown for us locally and are hardy and vigorous. Prices as low as can be made and furnish good strong, healthy plants.

**BIRD SEED**

*Add 5c per lb. for postage. Price subject to variations of the Market.*

**Canary.** Sicily, selected  
**Hemp.** Russian, first quality  
**Rape.**  
**Sunflower.** Russian  
**Millet.**  
**Cutletfish.**  
**Unhuilled Rice**
Grasses and Grains

NOTE—Owing to the frequent changes in price of Grains and Grasses we have refrained from inserting prices of them in this catalogue. The lowest market price will be quoted on application.

SPECIAL ATTENTION

Though we trust you will give your careful attention to the vegetable section of our seed catalog, we do not want you to overlook that part of it treating on Northern Grown Grass Seeds.

While we carry several grades of the different varieties of seeds, we recommend our Purity Brand as the very best the market affords. These seeds are strictly Northern grown, and are selected by us because they possess the two essential qualities of purity and vitality. It is well known that there have been large quantities of Grass and Clover Seed sold as pure, which official analysis has shown to contain large percentages of adulteration. This not only defrauds the planter by selling him a worse than useless article, but inflicts injury also by filling his land with noxious weeds. We list Grass and Clover Seed according to their quality, grading down from our Purity Brand, which is always the best.

Again we call your attention to the following pages, hoping that our grass-seed business may be of mutual advantage to us both.

Purity Brand Lawn Seeds
Our own mixture, from the purest seeds obtainable.
We can surely please you on this brand.

28
INSECTICIDES and FUNGICIDES

Spray Calendar

Apples—Scab—Use Formula No. 8 before the flower buds open, then after the flowers fall. If the orchard is badly infected, spray at intervals of three weeks with two more sprayings.

Bitter Rot—Use Formula No. 5 about the middle of June, or if it has not previously been serious, spray when the disease appears. Give two or three other sprayings at intervals of about three weeks.

Canker Worm, Coddling Moth, Curculio, and other Biting Insects—Use Formula No. 2.

Leaf Curl—Use Formula No. 5 or No. 8 when the trees are dormant.

San Jose Scale—Use Formula No. 8 when the trees are dormant.

Pears—Scab and Leaf Spot—See under Apple.

Raspberry, Blackberry and Dewberry—Anthracnose—Cut out all infected canes in the spring and use Formula No. 5 before the buds open. Spray again at intervals using the same formula. As the fruit ripens, use Formula No. 9.

Strawberry—Mildew—Use Formula No. 5 at first sign of disease.

Rust—Use Formula No. 5 before the buds open. Formula No. 9 before the fruit ripens. After fruiting, apply with Formula No. 5 again as may be needed.

Potato—Blight, Rot and Beetle—Use Formula No. 2 or No. 4 when either appears and again at intervals of ten days as long as either is prevalent. The Bordeaux Mixture is for the Blight and Rot and the Arsenate of Lead or Paris Green is for the Bees, but either may be used in combination with the Bordeaux Mixture.

Tomatoes—Blight and Rot—Use Formula No. 5 when first fruit is half grown. Spray again in ten or fifteen days. Formula No. 9 should be used when fruiting if any spraying is necessary at that time.

Dandelions—Use Formula No. 10. Do not spray for two days before or after cutting the lawn. Most effective if it does not rain for 20 hours after spraying. Water the lawn and allow the grass to dry before spraying. Young plants should only require one spraying. Old plants are resistive, so repeat when they grow up again. When dandelions are dead, seed in with grass at once. Sulphate of Iron is not poisonous but will discolor clothing.

Wild Mustard—See under Dandelions.

Canada Thistles—See under Dandelions.

SRY FORMULA

1. Arsenate of Lead—Use from 3 to 5 lbs. Arsenate of Lead to 50 gallons of water.

2. Arsenate of Lead and Bordeaux Combined—Use from 3 to 5 lbs. Arsenate of Lead to 50 gallons of Bordeaux Mixture. The Arsenate of Lead is used as an insecticide and the Bordeaux Mixture as a fungicide especially recommended for preventing blight.

3. Paris Green—Use 1 to 2 lbs. to 50 gal. water. Paris Green should not be used on peach, cherries or Japanese plums, and with extreme caution on other stone fruits. In mixing Paris Green solutions add Milk of Lime, which prevents the burning of foliage.

5. Bordeaux Mixture—Copper sulphate 5 lbs.; Lime 5 lbs.; Water 50 gals. In preparing use two one-half barrel tubs. One for Copper Sulphate and the other for the Milk of Lime. The two solutions are now poured into a barrel at the same time; the Lime solution should be kept well stirred. Two men are required to make Bordeaux Mixture, so as to get two liquids poured into the barrel evenly.

6. Kerosene Emulsion—Kerosene, 2 gallons; Whale Oil Soap, ½ pound; Soit Water, 1 gallon.

7. Tobacco Decoction—Tobacco stems and other refuse tobacco, 1 pound; Water, 2 gallons. Boil tobacco stems and other refuse tobacco thoroughly in the water. This solution is sufficiently strong for aphides and other very delicate insects.

8. Lime Sulphur Solution—We find from experience that the Commercial Lime Sulphur Solution is much preferable to the homemade solution, as, generally speaking, the mixture is better, being less liable to foliage injury and causing no trouble by clogging of spray nozzle, etc.

9. Ammonical Copper Carbonate—Copper Carbonate 6 ounces; Strong Ammonia (just enough to dissolve the Carbonate) about 3 pints; Water 50 gallons. This is for use only when the fruit is ripe, or nearly so, and we do not wish to discolor it with Bordeaux Mixture.

10. Sulphate of Iron—Dissolve 4 pounds Sulphate of Iron in 2 gallons of water. Strain the liquid carefully through a fine screen of cheesecloth.

We have everything in Spraying Machinery including Hand Traction and Gasoline Power Outfits. Send for descriptive matter or else call at our store and examine them.

Pure Paris Green—Ansbacher's

After having tried several of the other kinds of Paris Green we are convinced that Ansbacher's has no superior, consequently are handling this kind exclusively.

The price of Paris Green not being established at this time of going to press, we will be pleased to quote prices on application.

Grasselli Arsenate of Lead

Grasselli Arsenate of Lead paste contains 15 per cent Arsenic Oxide, combined with the maximum amount of lead consistent with good mixing qualities.

It contains less than one-half per cent. Soluble Arsenic.

Kills all leaf-eating insects. Mixes readily with water. Sticks to the foliage.

Grasselli Arsenate of Lead is used to destroy all leaf-eating insects attacking fruit trees, shade trees, vegetables, flowers and shrubbery, such as Coddling Moth, Curculio, Canker Worm, Tussock Moth, Elm Leaf Beetle, Gypsy and Brown Tail Moths, Potato Beetle and all similar insects that feed upon the fruit and foliage.

Mix with the required amount of paste as received, enough water to make a thin paste that will pour readily before putting into the spray tank.

Apply thoroughly in a fine mist under good pressure as soon as the insects put in their appearance, or where past experience has shown that certain insects are to be expected at a certain time, it is well to apply Arsenate of Lead in advance of their appearance.
It should always be borne in mind that all insect pests can be more readily killed when young and before they have attained their growth.

Grasselli Arsenate of Lead Paste may be used with either Lime Sulphur Solution or Bordeaux Mixture, combining in one application treatment for both insects and fungi.

Grasselli Arsenate of Lead Powdered

Grasselli Arsenate of Lead Powdered is usually used in the dust form. Apply as received, by finely dusting on the foliage. If mixed with water use 1 pound to 1 1/2 pounds to 50 gallons of water except for Potato Beetles. Use two to three pounds to 50 gallons of water on potatoes, applying 50 gallons or more per acre.

Grasselli Lime Sulphur Solution

Grasselli Lime Sulphur Solution contains 33 per cent. combined lime and sulphur in solution at 32 to 33 degrees Beaume, the maximum that will stay in solution under the various climatic conditions to which it is liable to be exposed.

It is a clear, cherry color liquid, free from sediment and works through the nozzles easily.

Grasselli Lime Sulphur Solution is used as an insecticide to control San Jose Scale, Oyster Shell Scale and all sucking or scale insects. For this purpose it is used at a dilution of 1 gallon to 9 to 11 gallons of water and applied during the dormant seasons, either after the leaves drop in the Fall or before the buds open in the Spring. The Spring applications just before the buds open will control Leaf Blister Mite.

Lime Sulphur Solution as a Summer spray replaces Bordeaux Mixture. The use of Lime Sulphur solution and Bordeaux Mixture in same application is unnecessary.

Tree Tanglefoot

For protecting trees against climbing insect pests in a simple, economical and effective way, use Tree Tanglefoot—a sticky substance applied directly to the bark of trees. One application remains sticky on the trees three months fully exposed to the weather. Easily applied with a small wooden paddle. One pound will make a band 7 to 8 feet long.

Price, 1 lb. can, .45
3-lb. can, $1.30
Postage extra.

Rat Corn

Will exterminate Rats, Mice, and Gophers from your premises in a Safe, Sane and Sanitary Manner.

Do you further know that in addition to killing millions of human beings by infecting them with Bubonic Plague, the Rat carries Trichinosis and Ten other Parasites? It has Leprosy and Cancer. Isn't it horrible to think of? You don't want unnecessary doctor's bills! Don't have them! They are among the unnecessary taxes. Stop paying these avoidable sickness taxes.

It mummifies them. No matter where they die they simply DRY UP. Positively do not smell.

Rat Corn is a new and scientific discovery, and without a doubt the greatest rat destroyer in the world; the only one that kills rats without any bad, dangerous or disagreeable effects. A trial will convince you. Prices: Small, .30. Medium, .50. Large, $1.00. Postpaid.

Cow's Favorite Fly Oil

Protects the stock, drives the flies away, means money in the farmer's pocket. Just the preparation for the dairyman or farmer. One gal. cans, per gal., .70.

Bug Death

This non-poisonous Insecticide and Plant Food is now too well known to need any detailed description.

Prices on Application.
Insect Powder and Bellows Combined

Red Wing is the best Insect Powder that can be procured and once you try it you will use no other. For the destruction of Roaches, Bed-Bugs, Fleas, Moths, Ants, Flies, etc. Prices, Small, 10c, Parcel Post 5c. Large 25c. Parcel Post 6c.

Crenoid

Barrett’s Crenoid is an up-to-date preparation from coal tar of invaluable service to the poultrymen, stock raisers and farmers. It eliminates flies and mosquitoes and assures sanitary conditions in stables, stock sheds, around barnyards, etc. Price, gallon cans, $1.00.

If, after using Sterlingworth Liquid Lice and Mite Killer, you believe it is not better than any other preparation you ever used for killing lice and mites in poultry houses, state the facts to us and we will refund the purchase price.

Prices: 1 qt., .40; postpaid, .50; 2 qt., .65; postpaid, .80; 1 gal, $1.00.

These candles are the most satisfactory Sulphur Fumigating Candles made. They burn three hours.

Prices: .10 each; Postpaid, .15; One Dozen. $1.10 postpaid.

It is a powder for use by dissolving in water. It kills all weeds in walks, drives and tennis courts where no vegetation is wanted. It is applied with an ordinary watering pot. One pound makes ten gallons. Price: 1 lb., .60.

For preventing potato scab, oat, wheat and grain. Mix one pound to fifteen gallons of water. Directions on label.

Price: 8 oz. bottle, .50.

This is a money back guaranteed remedy for white diarrhoea in young chicks and for all bowel trouble in grown fowls. It is the original White Diarrhoea Remedy. It is a powder to be used in the fowls’ drink.

Prices: 25 and 50 cents postpaid.

A standard preparation for preparing an effective and economical dip for ridding sheep of ticks, lice and scab.

One gallon makes 56 by mixing with water. Prices: $1.00.

Cooper’s. Enough to make 25 gals. .65; postpaid, .75.

Dr. Hess. Quart can, .40; postpaid, .50; two-quart can, .60; postpaid, .75.

We claim that Sterlingworth Lice Powder is the one best lice powder. You can see the dead lice drop from the bird treated with this powder. If it is not better than any lice powder you have ever used we will cheerfully return your money.

Prices: 5 oz., .10; postpaid, .15; 15 oz., .25; postpaid, .32; 48 oz., .60; postpaid, .68.

This is prepared exclusively for aphid or plant lice and spiders on house plants and vegetables. It is useful against most of the small sucking insects which infest house plants and greenhouse flowers. It is used by diluting one part of killer in fifteen parts of water and may be applied by spraying or sprinkling.

Prices: Home size, one quart, .50; postpaid, .60; greenhouse, one gallon, $1.50, by express.

An idealliquid Disinfectant, Germicide, Cleanser and Deodorizer. Has great powerful antiseptic and healing properties. It is a purifier and one of the best disinfectants for private or public sanitation.

Prices: 1 qt., .30; postpaid, .40; 1 gal., $1.50, by express; 2 qt., .50; postpaid, .65.

For squirting into the holes made by the Flat or Round-head tree borers. An ordinary oil can is just the thing for applying. Directions on can.

Prices: 1 pt. can, 30; postpaid, .40.

All Prices Subject to Change Without Notice.
Sterlingworth Dry Bordeaux

Fungicide

This preparation is a fungicide in dry powder form for preventing many fungous growths, blights, rots, mildew anthracnose, etc., attacking apple, pear, grape, nursery stock, currant, gooseberry, potato, tomato, strawberry, celery, beans, asparagus, plants, shrubs, etc. It does not kill insects. For a dry powder Bordeaux Insect Killer see Dry Bordeaux and Paris Green Compound.

It is used either dry as a dust or it may be mixed with water and used as a spray.

As a dust for fruit trees (except Japanese plum and other trees with tender foliage), etc., it is used by adding fifteen to twenty pounds of lime dust to one pound of Bordeaux; for potatoes, two to five pounds of lime to one pound of Bordeaux gives best results.

As a liquid ten pounds of this material to fifty gallons of water is generally effective. PRICES: 1 pound box 40c

A combined insect killer and fungous remedy. It does what Bordeaux, Paris Green and Arsenate of Lead will do, all with one spraying. It contains a sticker that makes it stick like glue. It is the best spray made for potatoes. It kills the bugs and prevents blights, rots, rusts at one application. Excellent for apple, pear and small fruits and vegetables. Controls the apple maggot, codling moth, canker worm, bud moth, kills hundreds of eating worms and insects and prevents scores of fungous diseases that attack vegetables and fruits. Ar-Bo is the great potato spray. Its use on potatoes gives the crop in many instances as much as three weeks to mature. Do not think of trying to raise potatoes without it. Use it once and you will never use any thing else. It is a paste about the consistency of thin putty and is made ready for use by mixing at the rate of one pound to five gallons of cold water. It does not clog the spray nozzle. Apply with any hand or power spray pump. Full directions on label.

PRICES: 1 lb., .35; 5 lbs., $1.15; 10 lbs., $2.15. Larger sizes, prices on application.

It kills San Jose Scale and Oyster Shell Scale when properly applied, and helps protect trees from reinfection. It covers more surface, is more effective and cheaper. It is easier to use than sulphur sprays. Kills every scale it strikes. It is a miscible oil for mixing with water. One gallon makes 12-15 gallons by mixing with cold water. PRICES: 1 gal. $1.00.

For use against leaf-eating insects such as rose slugs, currant worms, cabbage worms and many other leaf-eating insects where mild poison is required, as Powdered White Hellebore.

PRICES: ½ lb., .25; postpaid, .30; ½ lb., .40; postpaid, .45.

Crow Tar

Thoroughly reliable tar made especially for using on corn as prevention against crows. Give the corn a thin coating which quickly dries so that there is no trouble in putting through planter as in the case with tar preparation not made especially for that use. Price on Application.

All Prices Subject to Change Without Notice.
Incubators, Brooders and Hovers

Genuine Cyphers Company Incubators Patented

Standard Cyphers Incubators

These are the machines that for sixteen years and more have been recognized as the "Standard hatcher's of the world." Tens upon tens of thousands of them have been sold and are in successful use in every civilized country on the globe. They are used by more Government Experiment Stations, on more large, practical poultry plants, on more successful duck and egg farms, and by a larger number of foremost poultry breeders than all other makes combined. They are the last word to date in incubator building, not a penny being spared anywhere in their construction to make sure of their doing satisfactory work in all climates, under widely different conditions, in the hands of all sorts of people. They are built to hatch and to last. With ordinary care they should last an ordinary lifetime. Every Standard Cyphers Incubator is guaranteed by the manufacturers to do first-class work in the hands of every purchaser who will give it a fair trial. Are built in four popular sizes.

- 70 Egg size, shipping weight 93 lbs. $16.00
- 144 Egg size, shipping weight 145 lbs. 25.00
- 244 Egg size, shipping weight 195 lbs. 37.00
- 390 Egg size, shipping weight 245 lbs. 44.00

Columbia Hot-Air Incubators

Are built to meet the wide-spread demand for large capacity, lamp-heated machines that can be sold at surprisingly low prices and yet be guaranteed to do high-class work. Have wooden cases, attractively finished in dark green, with brass trimmings and double walls. Seamless-bottom lamp bowls, best quality brass burners, zinc and steel standard Cyphers toggle-joint thermostat and same regulating equipment as used on highest priced machines. Fume proof, forced draft heater, asbestos covered and metal banded. Automatic in ventilation and embodies diffusive principle. Roomy chick nursery under trays. Are made in two sizes.

- 140 Egg size, shipping weight 83 lbs. $16.25
- 250 Egg size, shipping weight 114 lbs. 22.50

Cyphers Coal-Burning Colony Hover

Coal-burning Colony Hovers are designed to meet the great demand that now exists for a comparatively inexpensive means of brooding chicks. With a good colony hover, 300 to 800 or even 1,000 chicks may be brooded in a single flock. The chicks not only find sufficient hover room in the large "warm zone" under the dome where they assemble at night or when they require special warmth, but the entire room in which the hover is located is heated to a comfortable temperature. Even in cold weather the chicks can be allowed to scatter all over the room.

The Cico Coal-Burning Colony Hover is well made and practical in design. The ash pit is of good size and easy to clean. The grate is of the best type. A mechanical device makes it impossible for the fire to dump accidentally. The whole is without complicated parts.

We quote an especially low price on this practical, efficient colony hover and back it by the same liberal guarantee that goes with all Cyphers Company's products.

The Cico Coal-Burning Hover is sold with complete equipment, consisting of dome, automatic regulator, cords, pulleys and hooks, and one length of stove pipe—price complete, $15.00.

Superior Hot-Water Incubator

In the Superior you get a hot-water incubator that is well built, well insulated and up to Cyphers standards in all details of design, material and workmanship. It is equipped with Cyphers Company's regular patented toggle-lever regulator; it has a high grade water heating system; it can be operated more easily than any other hot-water machine; and it will out hatch and out last any hot-water incubator on the market at anywhere near the price. It is well made and handsomely finished—nothing cheap about it in appearance. Built in two sizes and at prices as follows:

- 65 Egg size, weight 43 lbs. $11.75
- 130 Egg size, weight 68 lbs. 16.25
Cyphers Company Brooders and Hovers

Standard Cyphers Brooders

The Standard Cyphers Brooders are not only fire-proofed and insurable, but are most durable, convenient and most efficient indoor and outdoor brooders thus far invented and placed on the market. They are equipped with the same type of high-grade thermostat as used on the Standard Cyphers Incubator—you can therefore depend upon an even, steady temperature in the hover, and a lively, thrifty growing lot of chickens.

These Cyphers 1918 Brooders, all sizes and styles, are self-regulating, self-ventilating and varnertment proof. They are usable also as colony coops for the growing chicks. They are easily and readily converted into colony roosting coops by simply taking out the hover, which is made removable for that purpose.

THIS DOUBLE USE of the Cyphers Brooder means a considerable saving of money. It makes a safe and comfortable enclosure for the young chicks at night, and saves the buying of a coop for them. These outdoor brooders, on account of their fire-proof construction, can be used indoors equally well. All Cyphers 1918 Brooders contain either two or three apartments. The popular Style B (shown in illustration herewith) contains three apartments; first, roomy space under the hover; second, hover chamber; third, well-lighted exercising apartment. It has often been said by users of Cyphers Brooders that “They Mother the Chicks Better than a Hen.”

Style A. Two-Apartment Brooder

Style B. Three-Apartment Brooder

Cyphers Adaptable Hover

The Cyphers Adaptable Hover is self-ventilating and self-regulating. It supplies a continuous flow of fresh, pure, warmed air under the hover, and at the same time maintains a steady, uniform heat. All the essentials of successful brooding of chicks are automatically provided. It is “adaptable” to use in Colony Coops, in portable houses, in home-made brooder coops, such as dry goods boxes, piano boxes and organ cases, as well as in large brooding houses. It is constructed entirely of non-combustible material, and bears the fire underwriters', Inspected Brooder label. Capacity, seventy-five newly hatched chicks, or fifty chicks that are ten days to six weeks old. Weight, 38 lbs. Price, $10.00.

Cyphers Portable Hover

The Cyphers Portable Hover is the only self-regulating and self-ventilating Portable Brooding Hover thus far invented, and it is equipped with the same high-grade thermostat as the Cyphers Incubators and the Cyphers Adaptable Hover, it maintains a steady and uniform heat. It is positively and infallibly automatic in ventilation, preventing the trapping of “dead” air or poisonous gases underneath the curtain. A continuous supply of fresh, warmed air is automatically forced beneath the hover.

This Portable Hover, as its name indicates, can be picked up at any time, allcomplete, and moved about without hindering its operation. Very convenient for cleaning and moving. Rated capacity, seventy-five newly hatched chicks, or fifty chicks that are ten days to six weeks old. Weight, 38 lbs. Price, $10.00.

Globe Chick Feed

“Be sure you’re right—then go ahead” is a time-worn phrase, but never has it struck a warning chord clearer than when starting to feed day-old chicks. There is no time during the life of the chick that the correct proportion of albuminoids and carbohydrates in feed is so important, because this feed supplies the nutrient to development of the egg within the egg-organs of the hen. Globe Chick Feed can be fed to baby chicks with absolute confidence that it is composed of the RIGHT ingredients in the proper portions.

Made from Cracked Wheat, Cracked Kaffir Corn, Millet and Hulled Oats.

Described in detail on page 40.

Food will win the war

As food saving will be a constant issue until peace returns, we gladly donate this small space to a great volunteer movement now under way, along the lines of the Food Administration Advertising.

WHEAT—Don’t waste it

1. Eat less wheat-bread.
2. Don’t waste a single slice; make toast, pudding, etc., of all stale bread.

BUCKEYE INCUBATORS

The "STANDARD" Hot Water Hatching Device

Guaranteed to Hatch Every Hatchable Egg

During the 26 years that Buckeye Incubators have been on the market they have earned the reputation of being "The most satisfactory hatching device that has ever been produced."

Each and every Buckeye is sold under an absolute guarantee to hatch every hatchable egg and we have no hesitation in recommending to our trade under that guarantee because we have sold hundreds of them during the past five years that have given our customers the most remarkable hatching results.

"STANDARD" Buckeye Incubators

These incubators bear the Underwriters Fireproof Label. Equipped with every desirable device to be found on any incubator.

Guaranteed to remain in perfect working order for 5 years.

No. 1 Capacity 110 Eggs, Shipping Weight 110 lbs. $24.50
No. 2 Capacity 175 Eggs, Shipping Weight 135 lbs. $29.50
No. 3 Capacity 250 Eggs, Shipping Weight 200 lbs. $39.50
No. 4 Capacity 350 Eggs, Shipping Weight 230 lbs. $47.00

BUCKEYE INCUBATORS

STYLES E and H

Buckeye Style E

Klose Kontakt

Portable Hover or Artificial Mother

Constructed after nature's own plan. The only Hover ever invented that completely safeguards the little chicks regardless of the foolish inclinations of the chicks themselves.

No. 150 Kant Krowd Hover, 125 to 150 Chicks, Shipping Weight 100 lbs. $6.00
No. 75 Krowd Hover 60 to 75 Chicks, Shipping Weight 60 lbs. $5.00

All Prices Subject to Change Without Notice.
**Buckeye Brooders**

It is a matter of record that poorly constructed brooders are responsible for the death of more chicks than all other causes combined, so we consider it most advisable to call attention to the importance of using a type of brooder which we know will properly care for the chicks after they are hatched.

### Indoor Brooders

Top heat—circulating hot water. Self-regulating.

- **No. 1 Capacity 60 chicks, shipping weight 50 lbs.** ........................................... $4.00
- **No. 3 Capacity 100 chicks, shipping weight 80 lbs.** ........................................... $5.00

### Outdoor Brooders

Top heat—circulating hot water. Self-regulating—storm proof.

- **No. 2 Capacity 50 chicks, shipping weight 90 lbs.** ........................................... $6.00
- **No. 4 Capacity 100 chicks, shipping weight 100 lbs.** ........................................... $9.00

### Buckeye Portable Brooder

The oil burning brooder with all the desirable features of the modern coal burner. It is the only oil burning brooder that provides *every ideal condition* which you know to be necessary to the health and growth of the chicks, and its construction is so simple that the operator cannot go wrong. There is nothing to adjust, nothing to get out of order, nothing to look after but the lamp, and that requires filling but once in 24 hours.

- **No. 20 Diameter 19 in., capacity 60 chicks, shipping weight 19 lbs.** .......................... Price $7.50

### Security Portable Brooder

Centrally heated by an oil lamp. Chicks hover at the curtain, making crowding impossible.

- Diameter, 30 in., capacity 150 chicks, shipping weight 60 lbs. ........................................ Price $15.00

### Standard Colony Brooder

A Brooder that enables any poultryman to care for 1,000 chicks with about the same amount of time and labor that formerly took to care for 100.

A Brooder that provides a constant correct temperature, a constant supply of pure, fresh air, plenty of exercise, and no possible chance for crowding—every essential for the welfare of the growing chicks—with such automatic regularity that all possibility of unfavorable conditions so commonly found in other brooders are entirely eliminated.

*Send for complete Buckeye Catalog.*

**TWO SIZES**

- **No. 18 Dome 42 in. weight 75 lbs., capacity any number of newly hatched chicks up to 500. Price................................. $17.50**
- **No. 19 Dome 52 in. weight 94 lbs., capacity any number of newly hatched chicks up to 1,000. Price................................. $21.50**

_All Prices Subject to Change Without Notice_
International Sanitary Hovers

Advantages possessed by the International Hover and not to be found in any other brooding device.
1. It is warmer at the curtain than near the center. This causes the chicks to distribute themselves just back of the edge of the curtain where they have a consistent supply of fresh air and plenty of room.
2. It is entirely circular and has no corners for the chicks to crowd into.
3. The lamp holder can be lifted out through the top of the hover by a person standing up. This makes it unnecessary for the operator to kneel in dust and mud to tend his lamp.

It gives ample heat under the hover without so heating the surrounding floor space as to cause leg weakness among the chicks.

Send for Full Descriptive Catalog.

Price $8.50

NEWTOWN Colony Brooder

Coal-burning, Self-regulating.

Instead of spending time and energy and tending ten or more small lamp brooders and caring for the same number of small flocks the poultry raiser now rears 500 or 1200 birds around one Newtown Colony Brooder that burns coal and automatically regulates its own temperature.

Instead of increasing the cost of insurance on his buildings or taking big chances of destruction by fire of his plant and chicks, as a result of burning oil, coal-burning Newtown Colony Brooders are now employed, which are just as safe as the kitchen range and home heater.

Come see the one set up at our store and prove for yourself that your one best investment is Newtown.

Descriptive circular and prices sent upon request.

Cyphers Safety Brooder Stove

Cyphers Safety Brooder Stove consists of a brass oil fount and a safety water pan of the same metal, that holds nearly a quart of water and extends out over the entire surface of the oil bowl, thus placing a sheet of cold water an inch to an inch and a half in thickness between the oil in the oil fount or bowl, and the flame.

Price, each, $2.00

"PURITY BRAND" POULTRY FEEDS

Always Ready

Our trade-mark brand of Poultry and Chick Feeds represent strictly high-grade mixtures—manufactured from Sweet, Sound Cracked Grains and Seeds—scientifically proportioned and in sizes best adapted for feeding, carefully sifted and recleaned. No pains are spared to produce Feeds of the greatest value—best quality and uniform grade—the standard of which is maintained at all times.

It is a recognized fact that sweet and growing grain contains a larger percentage of nutriment, strengthening and fattening properties, naturally producing better and quicker results than unsound, damaged and musty material.

Globe Chick Feed

A complete Grain Feed for Chicks from time they are hatched until 8 or 10 weeks old

Clean Sound Sweet

A standard mixture of recleaned Cracked Grains and Seeds, Hulled Oats, fine Granulated Bone and fine Charcoal. Specially selected for size, and composed of ingredients necessary in promoting healthy and rapid growth.

This is the critical period of chick life, and Globe Brand is prepared especially to meet the emergency. It produces healthy and rapid growth, and is intended for feeding until the chickens are large enough to be fed the coarser Developing Feed.

Globe Developing Feed

An Intermediate Feed for Growing Chicks.

A Coarse Grain Chick Feed to meet the requirements of growing chicks from the time they have outgrown the Globe Chick Feed until large enough for Globe Scratch Feed.

Screened and graded to adaptable size. Mixed and recleaned by the most approved methods. This feed like all other "Dickinson’s Brands," is composed of the choicest materials obtainable.

"Globe" Scratch Feed

A Balanced Grain Ration Poultry Feed for Grown Fowls. Suitable at All Seasons.

Clean Sweet Sound

Under this brand we offer our standard mixture of Poultry Feed manufactured from Selected Cracked and Whole Grains and Seeds, scientifically mixed to furnish a complete balanced ration, with an assortment of material best adapted for rapid growth and egg production. The protein, fat and carbohydrates are so maintained as to form the greatest feeding value and produce the best results.

Queen Poultry Mash

Contains Alfalfa Meal During Winter.

Proportions changed to meet requirements of different seasons.

Clean Sweet Sound

A selected mixture of ground feeds manufactured from the choicest, sound, sweet and wholesome grains. It is carefully prepared and contains ingredients in proper proportions essential to the health and growth of the fowl.

Splendid bone builder and especially helpful during the molt. Also contains Beef Scraps and Charcoal, recognized necessities for health and egg production.

Globe Egg Mash

Invaluable as a Supplementary Feed for Winter Laying. 15% Meat Scraps and Oil Meal—16-18% Protein. Can be fed dry or moistened as preferred. The regular grain ration should be supplemented once a day by some mixture of ground feed containing high protein.

An Ideal Feed for Growing Fowls and Laying Hens.

Purity Alfalfa Meal

Medium Cut

As an accompaniment to the mash fed by some, and the dry feed by others, a vegetable food is indispensable, in fact, no mash is complete without it. Among green feeds, Alfalfa stands at the top, and when used with the mash, Medium Cut Alfalfa is mixed dry with other foods, and scalded or boiled with them, as the poultryman desires. When fed in connection with dry grains it should be scalded in a trough or other vessel and left for the fowls to eat at will.

All Feeds listed above come in 100 pound bags.

Samples and prices on request.

We give no warranty, expressed or implied, but we buy our Seeds from reputable Seedsmen and we carefully test them before putting on the market. Goods not accepted on these terms must be returned at once, prepaid.
Sterlingworth Charcoal

Sterlingworth Charcoal is especially prepared for poultry, carefully screened, and is different than other charcoals. Goods are put up in 50-pound burlap bags and in 2-pound paper cartons, in four sizes as follows:

Fine Powdered for Mash Food for Ducks also Cattle and Hogs.

Fine Granulated for Brooder Chicks and Dry Chick Food Mixtures.

Medium Granulated for Half Grown Fowls, Pigeons, etc.

Coarse Granulated for Full Grown Fowls, Geese, Turkeys, etc.

Price: 50-pound bags $1.50 each.

Stearns Clover Cutter

A Person in Five Minutes Can Cut Enough With This Machine to Last One Hundred Fowls a Day.

This cutter is made in convenient size for use on bench or table. The entire frame is made of malleable iron, making a very light and strong machine. It is self-feeding and self-sharpening. Cuts clover very rapidly; is also suitable for cutting cabbage leaves, alfalfa, etc., and is run with very little effort. Eight cuts to each revolution, cutting into one half inch lengths, and making a total cut of four inches to each revolution of the cylinder.

Price: $3.00; postpaid, $3.10.

Oyster Shells

Crushed and ground to the size which expert poultrymen agree to be the best.

Price: 100 lb. bag, 90c.

High Grade Beef Scraps and Cracked Bone.

Dr. Hess’ Poultry Pan-a-cea

Contains tonics that aid the digestion; it also contains iron for the blood and nitrates to expel poisonous material through the skin; it is the only reasonable way to produce eggs without stimulants that are injurious.

1½ lb. pkg., .25; postpaid .31; 5-lb. pkg., .60; postpaid, .70; 12-lb. pkg., $1.25; postpaid, $1.43; 25-lb. pail, $2.50.

Mico Spar Cubical Grit

Mico Spar Cubical Grit does not become smooth, but retains its cubical form until entirely worn out.

No. 1 for Turkeys, No. 2 for Fowls.

No. 3 for growing Chicks and Pigeons.

No. 4. Extra Fine for Chicken Food. Price: 100 lb. bag, 90c.

Globe Scratch Feed

Globe Scratch Feed and Queen Poultry Mash

Makes 'Em Lay

Makes 'Em Pay

POULTRY SUPPLIES

Sexton’s Dry Feed Hopper

Pronounced to be the best Hopper offered. Simple in construction, easily operated and absolutely “rat” and “mouse” proof.

The lower cover is so arranged that it is held up by locking the top cover of Hopper over same, and by raising the top cover the lower cover will fall in place.

This Hopper is arranged to hang on the wall the desired distance from the floor and never need to be removed to be refilled.

12 qt., Price $1.25; Postpaid $1.37.

All Prices Subject to Change Without Notice
Sanitary Grit and Shell Box

Is manufactured of the best galvanized iron and contains three apartments for food, shells or grit. It can be hung up against the wall at any height desired, and is a thoroughly first-class article.

By the use of this self-feeding box every particle of grit, shells or food will be properly used and waste prevented.

Price: .75; postpaid, .85.

Hub Chicken Feeder

Very sanitary and keeps feed clean and dry. Chickens cannot get into it and will not waste the feed.

Prices: 9-inch .45; postpaid, .52; 15-inch .50; postpaid, .67.

Separable Drinking Fountains

Low-Priced—Easy to Clean—Will Last Many Years.

Drinking Fountains are made of heavy galvanized iron. The small size (1 quart) is designed for chicks, and is especially handy for use in brooders. The medium size (2 quarts) is for larger chicks. The large (3 1/2 quart) size is for adult fowls.

Prices: Each, Small, .25; postpaid, .30; medium, .35; postpaid, .42; large, .45; postpaid, .52.

Poultry Feeder

Our popular 1-2-3 Poultry Feeder can be used as a one, two or three apartment feeder, by simply changing the dividing walls. Perfectly sanitary and clean.

Price: Small, .65; postpaid, .75; Large, .90; postpaid, $1.00.

Call and see our line of sprayers. Everything from the smallest hand to the large Power Sprayers, also a large and varied line of Spraying Material.

Cyphers X-Ray Egg Tester

The Cyphers X-Ray Egg Tester is made of the best block tin and consists of a central cylinder or lamp flue, 5 1/2 inches high, with an outside diameter of 2 1/4 inches at the base and 2 3/8 inches at the top. It is designed for use in an ordinary hand lamp, fits over any style of burner with a diameter approximately that of the tester. In a dark room the light will be found strong enough to penetrate the shell and illuminate the interior of the egg. Price: .30 each; postpaid, .35.

No-Slop Chicken Fount

Can use any size Mason jar, thus making a clean, sanitary, low priced Fount.

Price: .15 each; 2 for .25. Postage, .05 each.

Poultry Killing Knives

These knives are made of the best steel and of special design. Price: .50 each; postpaid, .55.

Drop Bottom Founts

28-Gauge galvanized steel. Easiest thing in the world to open and clean. Clamp by which the bottom is fastened fits over the small hole under the hood, preventing slopping of water when the fount is handled. Solid brass hinge—no rust.

Price: 2 quart, .50; postpaid, .57; 1 gallon, .65; postpaid, .75.

Wall Founts

All these wall founts have hoods over the troughs, which prevent dirt from settling in the water. Can be hung up on the wall, and for this reason are preferred by many to the 2-piece fount, which must be placed on the floor.

Price: 1 gal., .60; postpaid, .67; 2 gal., .75; postpaid, .85.

Leader Adjustable Leg Bands

Latest and best adjustable leg band out. Has neat, compact and smooth fastening with no catching points.

Price, postpaid: 12, .15; 25, .25; 50, .45; 100, .75; 250, $1.50; 500, $2.75; 1,000, $5.25.

Initials on bands, .05 for 50 or less; .10 per 100 extra.

All Prices Subject to Change Without Notice.
**Favorite Dry Mash Hopper**

Years of experience have enabled us to put on the market a Dry Mash Hopper that fulfills every need. The curved bottom of the hopper always keeps the feed within easy reach of the birds. The flange at the edge prevents any possibility of waste and the small wires extending from the flange to the wire grid prevent the birds from throwing the feed sidewise out of the hopper. The most distinctive feature about this Favorite Dry Mash Hopper is the fact that it is an inch wider at the lower side than at the top, thus making it utterly impossible for the food to clog. 12-in. 12 qt., Price, $1.25, postpaid, $1.35; 18-in. 18 qt., Price, $1.50, postpaid, $1.65; 24-in. 24 qt., Price, $1.75, postpaid, $1.90.

**Chick Feed Troughs**

The only rounded chick feed troughs on the market. No trouble to clean them. The grate slides easily on and off—a feature not found in any other chick troughs. The grate also serves as a handle, and is so slanted that the chicks cannot roost on it. Two sizes—10-inch and 20-inch. 10-inch, $30, postpaid, $.37; 20-inch, $50, postpaid, $.60.

**Round-Bottom Dry-Food Hopper**

The hopper you will eventually buy. Sure to replace all the other makes of dry food hopper. Owing to the rounded bottom, dry mash and beef scraps feed readily and never clog. One that we're proud of. Price: $75; postpaid, $85.

**Grenier Caponizing Set**

Designed to simplify the operation of caponizing, so that the beginner can easily master it. This set consists of a lancet shaped knife, spring spreader, forceps, hook, ring, ring probe and canula. Price in velvet lined case. $3.00

**Peerless Drinking Fount**

Very easy to clean by simply removing the bottom. Can either be hung on the wall or by the bail. Price: 5-qt., $.80, postpaid, $90; 10-qt., $1.00, postpaid, $1.10.

**Dr. Hess’ Instant Louse Killer**

Destroys lice on poultry, stock of all kinds and ticks on sheep. It is a powder put up in round cans with perforated top. Price, per pkg., $.25, postpaid, $.30.

**Peerless Brooder Fount**

Just the fount for your brooder. Can be set on the floor or hung on the wall within reach of the chickens. Can be cleaned same as large founts. Price: 1 qt., $.40, postpaid, $.45.

**Porcelain Nest Eggs**

These Eggs are made of first-class Flint Glass. They do not break easily and will last indefinitely. Price, each, $.03; per doz., $.35, postpaid.

**Dry Food Hoppers**

Dry Food Hoppers have two compartments, a large one for grain mixtures, holding about six quarts, and a small one for beef scraps, holding about three quarts. Price, each, $75, postpaid, $.85.

**The Economy Oats Sprouter**

The best device for producing clean sprouted oats. Has five perforated pans each 16x17 in. and one drip pan at bottom. No lamp, no danger, very durable, compact. Green food all winter if you use the Economy Oats Sprouter which means bigger egg yields, consequently more profit. Price, $5.50

**THE 6 IN 1 EXERCISER AND FEEDER**

IS JUST what its name implies. It is a large, rust-proof, galvanized, steel hopper supported on four strong iron legs and designed to hold all the food necessary for poultry. The center hopper holds the mixed grain food, generally composed of cracked corn, wheat, Kaffir corn, buckwheat, barley, oats, etc., and is so constructed that an agitator underneath, containing whole corn as bait, can be worked by the fowls to scatter broadcast a small amount each time of the dry grain mixture. Surrounding this center hopper are six compartments made to contain dry mash, beef scraps, grit, etc. Price, 20 qts., $3.75

43
Lightning Sanitary Churn and Mixer

*What It Does.* It will actually make two pounds of butter from one pound of butter and one pound of fresh sweet milk. The butter is delicious and sweet. Follow directions and you will get results.

*An Economical Luxury.* If creamery butter is 34 cents a pound and milk 4 cents a pint, your milk-charged table-butter made with this churn will cost 19 cents a pound. (The proportion is one pound of butter to one pound or pint of milk).

*Other Uses.* The Lightning Sanitary Churn may also be used to make regular butter direct from cream; as a cream and egg beater; as a salad dressing or batter mixer; and as a butter renovator.

**DOMINION CLEANSER**

Is especially adapted for use in Creameries, Cheese Factories, Ice Cream Plants, Hotels, Restaurants and Private Houses.

*It Is a Soda and Makes No Suds*

Contains no Grease, Potash or Lye.

Will destroy nothing but cleans and cleanses everything washed with it and is perfectly sanitary.

For household use it has no equal.

Sold in 5 lb. sacks at 25c. Postpaid, .35.

*All Prices Subject to Change Without Notice.*
The "Boston" Aseptic Milking Tube

2-3/4 in., self-retaining. Exact size... $0.25

2-3/4 in., plain. Exact size. $0.25

The Boston Aseptic Milking Tube is recommended because it is so well finished and so easily sterilized. It is manufactured regularly in 1-3/4, 2-3/4, 3-3/4 inch lengths; plain or self-retaining, as desired.

The "Boston" Aseptic Teat Dilator (Dr. Murphy's Modification)

No More Hard Milkers

"Spider" in the teat is easily cured, and sphincter paralysis entirely disappears after a few days' use. Recommended by veterinarians and dairymen.

Price, 25c each

Boston Milk Fever Outfit

A cheap, portable, non-destructible apparatus for use in cases of milk fever. More economic than oxygen apparatus. It can be carried in the coat pocket. No wide-awake veterinarian case is complete without one of these instruments, and every dairyman should be provided with one for an emergency.

Recommended by Dr. John R. Mohler, Bureau of Animal Industry, Washington, D.C.

Price, each, $3.00

Plain Pipette

Test Bottle Brush — For Cleaning Babcock Bottles

"Boston" Aseptic Stricture Cutter

An Essential for Every Dairyman

The Boston is modeled on improved lines, and embodies the highest class of workmanship and utility, yet is so simple that professional assistance, while always desirable, is not necessary.

With or without galvanized ice boxes.
Will be shipped without ice boxes, unless they are ordered. Ice boxes separate, 70¢ each.

The Kinerson Combination Butter Prints

The Kinerson Prints are too well known to require elaborate advertising or testimonials. There are various devices on the market for printing butter, but the Kinerson Print has no real competitors. Its first cost is a trifle in advance of the cost of inferior goods, but no more so than is necessary to insure each customer of honorable business dealing, first-class workmanship, skilled engraving executed to order, and a thoroughly practical, simple and convenient Print which is the fruit of years of careful study, experiment and improvement—a Print that will save many times its original cost, in valuable time, and will outwear any other Print on the market. The above statements are made in thorough good faith and the Prints themselves will demonstrate their truthfulness.

These Prints will be carved with any Initial, Monogram or design wanted. Price including Cutters and Paddles, postage paid anywhere in New England.

1 lb., $4.00; 2 lbs., $5.00. *Postpaid*

10-bottle machine ......................................................... 15.00
12-bottle machine ......................................................... 18.00

Prices include full set of glassware, comprising test bottles, pipette and acid measure; also test bottle brush and bottle of acid.

Common Sense Calf Feeder

What It Is. The Common Sense Calf Feeder is a simple, practical device for weaning and feeding calves, so simple and so practical that every calf owner will see the value of it at a glance.

What It Does. It enables you to feed the calf out of a bucket in nature’s old way. If you could afford to let your calf run with the cow until nature compelled it to seek food elsewhere, there would be no scouring, unhealthy calves.

Follow nature; this feeder not only saves trouble and milk; but it prevents the calf from taking its food in the great gulps that play havoc with the digestive organs.

Butter Paper

We handle exclusively the Pioneer Brand of high-grade vegetable parchment paper and guarantee it to be the very best obtainable. We solicit correspondence for large or small quantities in any size, plain, or printed with special designs.

Arabian Scratch and Gall Cure

It is a scientific remedy for scratches and grease heel. It works as horsemen like to have it. 4-oz., pkg., .25; 8-oz. pkg., .50. Postage, extra, each size .08.

Bag Balm

Cures chapped, cracked and sore teats, bunches, caked bag, chafing, cuts and inflammation.

Price: Per Box, .50; postpaid, .58

Cows' Relief

It is used as a local application on cows' bags and teats. It will cure caked bags in 12 to 24 hours, if taken at the start.

Price: Small .50
Large .10
Postage extra, each size .09.

Calves' Cordial

Is free if it fails to cure scours in cows and calves.
Price: .50; postpaid, .59.

Kow Kure

The Great Medicine for Cows Only

It acts upon the digestive, generating and milk-secreting organs, keeping the entire system toned up and in perfect working order. It goes to the roots of the trouble, and cures cows diseases by removing the cause.

It prevents abortion, cures barrenness, removes retained afterbirth, prevents tuberculosis, stops the scours, cures milk fever, caked udder, swelling in the bag, floating red water, increases the flow of milk, cures cows "off their feed," improves the quality of milk and makes cows pay.

Price .50 and $1.00 per can.
Postpaid .50 and $1.14

Grange Garget Remedy

Positively cures garget without in any way injuring the cow or lessening the flow of milk, and tones and invigorates the infected parts. Price: .50; postpaid, .60.

BLATCHFORD CALF MEAL

The Complete Milk Equal

A 50-pound bag will nourish a calf from the time it is 4 or 5 days old until it can eat ordinary feed. Another bag or two combined with the ordinary feed will start it well on toward maturity.

Coldwell's RAJAH is a strictly high-grade ball-bearing Lawn Mower. It is made of first-class material throughout and the workmanship and finish are unsurpassed. It has large driving wheels and fine cut gears, thus insuring ease and quietness of running. The large diameter revolving cutter which is furnished with five blades, makes it an exceptionally high-class Lawn Mower.

This Mower is furnished with Coldwell's patent double-edge bottom knife which is shaped like a piece of channel iron with two up-turned highly tempered edges.

This is a good Mower at a medium price for all ordinary work. The drive wheels are nine inches in diameter. The revolving cutter is 6 inches in diameter and has 4 crucible steel blades highly tempered and ground true their entire length. It is carried on our patented adjustable ball-bearings.

14 in., $7.50; 16 in., $7.85; 18 in., $8.25.

We cannot offer a better mower at any price. It has Ball Bearings of the very highest grade exact to ¼ of 1-1000 of an inch, which greatly reduces friction. Double Steel Ratchet, very swift and smooth in action, as well as exceedingly hard for durability. Triple Gear. Entirely enclosed, allowing no dirt or cut grass to find its way into the pinions or cogs.

16-in., $13.75; 18-in., $15.00; 20-in., $16.25

This Mower has the same structural details as Duchess, with the exception that it has three blades in the revolving cutter.

14 in., $7.25; 16 in., $7.30; 18 in., $7.85.

This Mower we guarantee to be the best ball-bearing Lawn Mower, for the price, on the market. It has high wheels (9 inches), flat, steel sliding pawls in the ratchets, and large diameter revolving cutter (6 inches), furnished with four blades.

This Lawn Mower is equipped with our patent adjustable ball-bearings, the adjustment of which is accomplished by means of a single screw.

16 in., $9.00; 18 in., $9.50.

This is a good Lawn Mower at a medium low price and gives the purchaser full value for his money. It has brass bushings and the same ratchets and adjustments that are used on many of the high grade Mowers, and it is in every respect what is needed at the present time, viz., a Mower that will do good service and at a cost but little higher than the poor trash that is put out so freely.

14 in., $5.25; 16 in., $5.45; 18 in., $5.65.

A splendid High-Grade Mower, at a little lower price than the "Victory." Ball bearings entirely enclosed. Adjustments very simple. Knives very hard and of the best steel.

We make a specialty of GRASS SEEDS, and while we carry several grades from PURITY BRAND down, we always recommend the best, our PURITY BRAND.

If you don’t own a Garden Seeder and Garden Cultivator and are doing any gardening at all don’t lose any time in calling on us and see what we have to offer you in the way of seeders, cultivators, etc. You don’t have to do a very large amount of gardening to save the price of one of these tools.

All Prices Subject to Market Changes
A well and substantially built machine equipped with both hand crank and treadle. Frame is a combination of wood and steel—finished in Japan and red paint. Runs "true" and easy, for journals are fitted with Ball-Bearings. Furnished with carefully selected Berea grit stone—from 2 to 2¼ inches thick.

Climax Ball Bearing. Large stone $5.75
Climax Ball Bearing. Medium stone 5.25

**GIBRALTAR PORTABLE PLATFORM SCALE**

Single Beam with Wheels

Beams graduated 50 lbs., by ½ lbs.

It is absolutely accurate and durable. The "Gibraltar" scale is made to comply with the laws on weights and measures of all States of the Union.

600 Pounds Capacity. Platform 16x25.
Price, $17.50

Price, 19.25

It's made right—built on up-to-date mechanical principles. Equipped with same grade and size stone as used in Climax Machine. Peculiar construction of frame insures great rigidity. Upper frame forms brace for legs which are made of one-piece angle steel.

Ball-bearing axle and pedal cranks cause stone to revolve rapidly, easily, and evenly. Attractively finished in red or black enamel. Easily set up.

Cycle Ball Bearing Medium Stone $5.45

No. 3. Capacity 3 cubic feet of earth, weight 85 lbs. Price 11.00

We have a little lighter made scrapper that sells at $1.00 less on each size.

Dustbane

The very best of all sweeping compounds on the market. No sand to increase its weight. It is a perfect Dust Killer. Every Storekeeper as well as every housewife should have a supply on hand and use it at every sweeping. A handful at a time when you sweep absorbs the dust, brightens the floor and cleans your carpet.

Prices: Large can, .25; 50-lb. can, $2.00; ½ bbl., 75 lbs., $3.00; bbl., 150 lbs., $5.25.

All Prices Subject to Market Changes
O-Cedar Mops
A Better and Easier Way to Clean

No more back-breaking to clean and polish the floors; no more crawling under the bed, or moving of heavy furniture; no more climbing up on chairs to dust the mouldings or tall furniture. The O-Cedar Polish Mop gathers all the dust from everywhere and holds it. Does not stir up the dust but collects it.

Cleans and polishes at the same time, putting a high, hard, lasting lustre on all varnished surfaces. There is nothing to equal the O-Cedar Polish Mop for polished floors, linoleums, etc. Gets down into the corners, gets the dust under beds, heavy furniture, radiators, etc. The mop is padded and cannot scratch or mar the furniture.

REPAIRS AND PARTS

O-Cedar Polish
A Wonderful Varnish Food

For cleaning and polishing floors, furniture, automobiles, etc. O-Cedar is by far the most economical furniture polish as it is used with water. Puts on a high, hard, lasting lustre, and does not leave a bluish cast and gummy surface. It contains no grease, mineral by-products or benzines.

Every ingredient of O-Cedar Polish is a pure vegetable substance. Positively will not ignite. It is easy to use. Very little rubbing is required.

O-Cedar Polish is well and favorably known and is widely advertised in connection with the O-Cedar Polish Mop.

Porter "Whirlwind" Barn Door Hanger—No. 6

This Whirlwind Hanger itself is very compact, it is ball-bearing throughout. The wheels are made of hardened steel and each runs upon twenty-four balls. The track, as will be seen from the cut, is in the form of an ellipse, with one end flattened so as to provide a level surface upon which the wheels run.

*Price* $1.25 per pair

HAY CARRIERS
THE MYERS O. K. HAY UNLOADERS
Patented

For Rope or Cable Draft
HAS EXTRA LONG TRUCK
Reversible and Swivel
For Double Steel Track
Has Seven Inch Sheaves.

The Myers O. K. Unloader with extra long truck and seven-inch sheaves for cable draft rope is especially designed for heavy work. The long truck distributes the load on the track and adapts the car for using two forks or slings.

The bearings on all rope sheaves are 1 7-16th diameter, hard turned steel.

Price List, Represented by Fig. 1652
No. 209. Myers O. K. Unloader for Double Steel Track, rope or cable draft, 7-inch sheaves, 1 7-16 inch steel bearings.
Net Price, $9.00
No. 200. Myers O. K. Unloader for double steel track, rope draft, small sheaves, otherwise same as No. 209.
Net Price, $8.00

Reversible and Swivel. For Wood Track
HAS SEVEN-EIGHTH INCH TURNED STEEL AXLES

The Myers O. K. Unloader is our latest and best production. Has extra long and heavy truck, distributing the load on track and designed for heavy work, such as slings or two forks.

We guarantee this machine to be stronger than any other carrier made.

Price List Represented by Fig. 1547
No. 205. Myers O K Unloader for Wood Track, rope draft.
Net Price, $8.00

No. 212. Myers O. K. Unloader for wood track, rope draft. Same as No. 205 and in addition has 7-inch rope sheaves.
Net Price, $9.00

MYERS CLOVER LEAF UNLOADERS
For Double Steel Track

Figure 1031 represents the new Clover Leaf Unloader made of malleable iron throughout. Is heavy and substantially made. Is fitted with wide, open mouth to receive the fork pulley when approaching in any direction. Also has swinging fork pulley which relieves the carrier from all strain when drawing hay over a high beam or into a well-filled mow. The track wheels revolve on 7/8-inch turned steel axles. The rope sheaves have longer hub than any other make of carrier. The lock is composed of three parts, and has no springs. The locking device grasps the fork pulley on either side, and permits it to swing free.

No. 114. Net Price, each.............................................. $8.00

For Wood Track

Fig. 1032

Has Swinging Fork Pulley—a Great Advantage in Drawing Hay into a Mow When Filled Near the Roof.

The above illustration represents the Clover Leaf Unloader as made for wood track. This carrier is fitted with a wide, open mouth to receive the fork pulley. The rope sheaves and track wheels are all fitted with large turned bearings. The machine is both swivel and reversible—combined in one machine. By this device the machine can be reversed by reversing the swivel or by drawing the rope through from end to end.

No. 120. Net Price, each ........................................... $8.00
HAY CARRIER OUTFITS

Special Notice

When requesting quotations do not fail to give exact length of barn, whether ridge or full rafter, and distance between rafters. Also state whether you expect to hoist from end or center of barn.

Estimates For Hay Carrier Outfits

Estimate of material required for a Steel Track Outfit for different length barns:
For a 40-foot barn, One Carrier, 36 ft. Track, 21 Hanger Hooks, 12 Rafter Brackets, 1 Harpoon, or Grapple Fork, 3 Pulleys, 3 Floor Hooks, 160 feet 3/4 inch Manila Rope, 55 feet 3/4 inch Check Rope, 1 Rope Hitch.
For a 50-foot barn, One Carrier, 48 ft. Track, 20 Hanger Hooks, 20 Rafter Brackets, 1 Harpoon or Grapple Fork, 3 Pulleys, 3 Floor Hooks, 160 feet 3/4 inch Manila Rope, 55 ft. 3/4 inch Check Rope, 1 Rope Hitch.
For a 60-foot barn, One Carrier, 54 ft. Track, 20 Hanger Hooks, 20 Rafter Brackets, 1 Harpoon or Grapple Fork, 3 Pulleys, 3 Floor Hooks, 185 feet 3/4-inch Manila Rope, 65 feet 3/4-inch Check Rope, 1 Rope Hitch.

Above estimates of Rope are for an End Hoist. In hoisting from center of barn, less Rope will be necessary.

The Colonial Paint is a Pure Linseed Oil Paint, that has been on the market for many years, and is considered one of the leading brands.

The materials composing this product, carefully treated as they are, make a paint of great roughness and elasticity that has excellent covering capacity and durability.

As the choicest coloring ingredients are used in making this product the richest coloring tone and finest finish is developed, and the building to which it is applied presents a beauty of appearance which distinguishes it from others in the locality.

The Colonial Paint is manufactured in forty different shades from which beautiful color combinations can be made, that will not only harmonize with the architectural design of any building, but also with the surroundings, thereby making the property much more attractive, and also increasing its value.

The Colonial Paint can be sold with perfect assurance that it will meet the demand of every user.
**Vel-ve-ta**

*The Sanitary Washable Wall Finish*

Vel-ve-ta is manufactured under a patented formula—contains no lead or other poisonous pigments, and although applied to the surface like an oil paint, when dry it is non-absorbent, can be washed with soap and water, and is therefore sanitary.

It dries with a beautiful soft and velvety finish, which is pleasing and restful to the eye.

It will not turn yellow, craze or peel. It will not show laps, streaks, or brush marks.

**Vel-ve-ta** is recommended for interior decoration in homes and public buildings, and in factories. It is equally adapted for this use because it effuses light.

**Dry Colors**—High grade in every respect.

**Colonial Screen Paint**—For coating wire screens. Will not clog.

**Chalco Paint and Varnish Remover**—For removing paint or varnish.

**Transparent Colored Varnishes**

Gold and Aluminum

Solid Enamel Colors

There is a color provided for every requirement of the housewife who wishes to keep her floors, furniture, woodwork, etc., in spic and span condition. There is also Jap-a-Lac Floor and Interior Varnish (Natural) which is the most durable floor varnish on the market. Jap-a-Lac is for use on window screens, screen doors, iron fences, radiators, registers, water pipes, automobiles, wagons, in addition to the most common uses such as in floors, furniture and woodwork.

**GLIDDEN GREEN LABEL VARNISHES**

The name “Glidden” on a label is an absolute guarantee of high quality. Nearly fifty years of experience in the manufacture of varnishes and specialties for all purposes together with the most modern facilities, insures uniform quality at all times and goods that can be depended upon to give perfect satisfaction. Any person purchasing goods under the Glidden Green Label Brand can feel assured that he is receiving full value. There is a brand made for practically every purpose and at prices which fit any pocket-book. Send for price list.

**GLIDDEN ENDURANCE WOOD STAINS**

Superior to oil or spirit stains and do not raise the grain. Glidden’s Endurance Wood Stains are for use on new wood which has never been finished. This line is made of fourteen attractive colors. Their beauty and practicability lie in the fact that an even stain is produced, thus insuring a beautiful, lasting finish. The stains produce the beautiful Mission effect, so much in vogue at the present time, and are also for use when securing a waxed or varnished finish. *Color Cards and Price Lists on Application.*

**INTERNATIONAL ELASTIC CARBON PAINT**

A practical, scientific blending and grinding of oils and pigments, making a paint of enduring elasticity for shingle, felt, canvas, paper, asphalt, tin and iron roofs, bridges, machinery, tanks, iron or steel buildings, smoke stacks, boilers, burners, brick, tile, concrete, farming tools, wagons, also the hulls and bottoms of vessels and boats.

**Our International Elastic Carbon Paint**

Combines extreme usefulness and economy, because it is thoroughly elastic. Used on roofs or iron work, it lasts longer than any other for the reason that the paint expands and contracts in keeping with the surface on which it is placed.

This paint is not only elastic in the highest degree, but it has a very heavy body which fills all holes and cracks, making the surface perfectly water-tight. It cannot peel, crack or blister.

In fact, it is the ideal paint for the purpose for which it is made.

_Price:_ 1 Gallon _______________________________ 50 Larger Quantities on application.
MYERS LINE OF PUMPS

We carry the most complete line of Pumps in this section. We have it whether you want it for house, barn or orchard. House pumps, well pumps, for all conditions including spraying pumps and pumps for pneumatic water systems, whether hand or power. If it's a Myers it is right.

The Myers Long Stroke Cog Gear Brass Cylinder Pitcher Pump

No. R S 253. Fig. 1473. Force pump 3 inch brass lined cylinder, tapped for 1¾ inch pipe, 4 foot set length. List Price $12.75

No. R S 253. Fig. 1473. Force pump 3½ inch brass lined cylinder, tapped for 1½ inch pipe, 4 foot set length. List Price $14.25

Cock Spout on either of above pumps, add to list price $1.50

Myers Brass, Brass Lined and Polished Iron Cylinders

Fig. 976. Myers Brass Lined Cylinders are constructed with an outer shell of cast iron, in which is placed a heavy seamless drawn brass tube, ends of which are swaged out by our patent roller process to fit bevel on outer shell. They are fitted with our single or double leather plunger, and are guaranteed to give satisfaction.

Fig. 215. Myers Brass Cylinders, with Glass Valve Seat, capped outside, are especially adapted for drilled wells of small diameter. They are made of the best quality seamless drawn brass, have our special brass sand plunger, and are first class throughout.

IRON AGE FOUR-ROW, 55-GALLON TRACTION SPRAYER

Prevent blight by spraying and also increase the yield enough to pay for machine, solutions and labor in a short time. This is the kind of insurance that saves your crops (and nothing else will) and gives you a handsome profit besides.

Spray for bugs in the quickest, surest way. That means, use the right solutions, at the right time, and put them on with four- or six-row machines that save your time and do the work thoroughly.

Most successful of their kind. This line is the result of ten years of experience making such machines and we do not hesitate to recommend them as the most successful of their kind for more than ordinary reasons—they have capacity, power and adjustment to suit your every need, the best pumps on any line of sprayers made, and every modern convenience for easy working.

Equipment. Double-acting pump 55-gallon wood tank, wood wheels, 50x3 inches and adjustable on the axle for various width rows, regular spray bars, combination pole and thills.

Pipe, fittings, hose, etc., are made of the highest grade of material, as are all parts on the sprayers. Each sprayer includes a bucket strainer. Packed weight, 700 lbs. Descriptive folder and price on application.

GARDEN CULTIVATORS AND SEEDERS

Iron Age
No. 301. Double and Single Wheel Hoe
No. 301. Iron Age Double and Single Wheel Hoe. A Combination which is easily and quickly changed from one form to another. This feature alone makes the tool doubly valuable. When the plants are young, the double wheel hoe should be used astride the row and the single wheel hoe for working between the rows, after the plants have grown too high to be worked properly any other way. Complete with all tools as shown. Shipping weight, 40 lbs.

Price, $11.00

No. 306 Combination Garden Tool Four Tools in one
Hill Seeder—Drill Seeder
Double Wheel Hoe—Single Wheel Hoe

No. 306. Iron-Age Combined Hill and Drill Seeder, Double and Single Wheel Hoe.
Combination tools should be used for two reasons. They save in first cost and they take less room. Gardeners have found this to be true of the No. 306. Of course most market gardeners prefer to have separate tools always ready to do each separate piece of work—drills, wheel hoes, wheel plows, etc. The home gardener who has enough ground to warrant it, will find the No. 306 very convenient. Complete with all tools as shown; shipping weight, 57 lbs.

Price, $19.00

Spray Hose
15 Foot Lengths of ½ inch 5 ply Hose with couplings. List Price, $5.40

No. 19-C
No. 19-C Iron Age Wheel Cultivator and Plow is a low priced tool and will always be a convenience to have for many kinds of work. It does the necessary plowing in many soils, opens furrows for seed or fertilizer and covers on the return trip.
Shipping weight, 22 lbs. Price $6.00
COLUMBIA GARDEN SEEDER
The New No. 10 Columbia Garden Seeder
This new Seeder has created a sensation in the garden tool line and proved to be the most successful and accurate planter on the market. With the Columbia you can plant greater variety of seed and more accurately than any other machine manufactured and also bear in mind that it has positively a force feed.
No. 10 without Fertilizer attachment.  
Price $15.00

Hisco Garden Cultivator
Hisco garden cultivator has made a reputation and the 24-inch high wheel makes it an implement which will serve any purpose desired. Complete as shown; shipping weight 19 lbs.  
Price $4.00

NEW JOHN DEERE TWO WAY SULKY PLOW
With the Auto Foot Device
The John Deere Sulky Plow represents the highest type of material and workmanship that is possible to procure. The entire frame and beams are constructed entirely of high carbon steel, hence are very strong and durable.

The new style foot landing device is the most satisfactory ever used and by its use and the horselift operated by foot power the plow can be operated very easily.

Extra wide and long steel frame. Track wider than the ordinary plow, making it run steadier and less liable to overturn.  
Sizes  
Cuts
1342S-1442S Medium size
3 to 8 in. deep
12 to 16 in. wide

1341S-1441S Large size
4 to 9 in. deep
14 to 18 in. wide

Fitted with either Jointers, Hanging Cutters or Fin Cutters. Two or Three-Horse Eveners.

THE SYRACUSE REVERSIBLE SULKY PLOW
For Hillside or Level Land

For a great many years the Syracuse plows have been among the most popular in New England and their work easily gains them that distinction. These plows are equipped with Hardened Steel Mouldboard. Steel Landslide and Chilled Frog and Share. Furnished with either two or three-horse equipment.

Prices and Special Circulars Mailed on Application

Syracuse Walking Plows
Syracuse Diamond Swivel Plow

This type of Side Hill Plow has always been very popular in New England, being light, but still having great strength and good turning qualities. Easy shifting clevis and also automatic shifting Coulters except on small size.

Furnished in three sizes: Small-horse, Two-horse and Large Two-horse.

Syracuse Combination Walking Plows

This particular pattern is one of the best suited for conditions in this territory. Fitted with Hardened Steel Mouldboard, Steel, Landslide and Chilled Share. No. 32 Medium Two-horse, No. 31 Large Two-horse.

This type has also been very popular in Maine. It has the well-known Syracuse straight style of Beam, which gives ample clearance room. No. 443. Small Two-horse. No. 442. Large Two-horse.

Syracuse Contractors Plow

Hard iron wearing parts. Extra heavy Beam, Share and Strip Steel Wheel Frame. Loop Handle wear Irons. An excellent Plow for general grading purposes.

John Deere Pivot Axle Cultivator

A practical, general purpose Cultivator for Corn, Beans, Potatoes and general row crops. Fitted with either spring trip hoes or spring teeth. Frame has a clearance of 32 inches and an adjustment of 30 to 43 inches in width. Constructed of steel and malleable iron, making great strength and durability. Special Disc Hilling attachment for potatoes. Send for special Circulars and prices.

Deere J. B. Cultivator
Parallel Guide

The value of any cultivator to the farmer is governed primarily by the good qualities that show in actual use.

The Parallel Guide secures perfect control and thorough cultivation in narrow and crooked rows and on hillsides as well as in straight rows.

The automatic lift relieves the operator of the labor of raising the rigs and balancing the cultivator; enables him to give his entire attention to work requiring judgment and skill. Depth of cultivation is regulated accurately.

Shovels penetrate and scour because they are always in same position to the line of draft.

Hitch is of the pendant type and adjustable. Pull of the team is applied directly to the point of greatest resistance, making light draft.

Can be equipped with Disc Hilling Attachment for potatoes.

Deere Disc Cultivator

Excellent for corn and potato work. Light, strong and convenient. Constructed entirely of steel and malleable iron. Very high arch. Spring pressure on gangs. Easy adjustment.

Send for special circular.
Note these John Deere Tractor Plow features:

They can be used with any standard tractor—hitch and depth control levers are adjustable to suit the tractor.

The bottom is the heart of the plow—all the rest of the plow is built merely to enable the bottom to do its work. The right kind of a plow bottom makes money for the owner. It lays the foundation for the right kind of seed bed. The crop yield is increased. The plow lasts longer and pulls lighter—a saving in actual cost, power and trouble. The bottom on every John Deere plow is correctly designed. John Deere plow success is due to bottom construction. An easy, high and level, power-lift—a pull on the trip rope raises the plow; another pull and the plows enter the ground. The tractor does all the lifting, and the rear end of the plow lifts high as well as the front. There is no gathering of trash when turning.

John Deere tractor plows can be backed—a stiff hitch is employed. There is perfect control when pulling, turning or backing.

**DEERE MODEL B DISC HARROW**

A Really Flexible Disc Harrow

Only Harrow manufactured having third lever giving spring pressure on gangs. High steel frame, oscillating scrapers with lock off device. Gangs work independent of each other. Oil tubes extending to top of frame. Furnished with 16, 18, or 20 inch discs, either plain or cutaway.

The User of a Deere Disc Harrow is always a Satisfied Customer.

**The Deere Model K Harrow**

This harrow is constructed to especially meet the requirements of orchard cultivation and it can also be used as an ordinary harrow. The gangs are reversible for in or out throw and are adjustable in or out on the harrow frame and extension frame.

By use of an extension frame the gangs can be spread to a distance of over ten feet between them. This allows cultivation under overhanging branches. Can be furnished in either 4, 5 or 6 ft. widths. Unexcelled for orchard work.

Send for full descriptive catalog and prices.
Acme Two Horse Riding Harrow

One working of the DEERE DOUBLE ACTION HARROW accomplishes more thorough pulverization of the soil than two separate operations because with this harrow the second working takes place immediately after the first and the partially broken-up soil does not have time to dry out and is, therefore, more finely pulverized by the action of the second section of the harrow. We recommend using plain discs on the front section and cutaway discs on the rear section and by their throwing in opposite directions the greatest efficiency in a harrow will be obtained. The front section can be used alone any time desired.

Special Circulars and prices on application.

Spring Tooth Harrows

Construction

Frame bars of angle steel are thoroughly protected by steel shoes, doubling the life of the harrow. Frame bars are raised at the rear ends to give free outlet to trash.

Tooth bars of channel steel journaled in malleable brackets above the frame, which give the teeth high and great range of adjustment for depth of cultivation and clearance.

15 Tooth ........................................ $24.00
17 Tooth ........................................ 26.00
10 Tooth, one horse, top handles .......... 17.00
10 Tooth, one horse, less handles .......... 15.50

Original Perry Harrow

The Wood Frame Perry Harrow is the most durable of the Spring Tooth Harrows. Is simplicity itself. Iron plated on the under side and in front, the entire length.

The Acme Standard Two-Horse Riding Harrow has two coulter sections and is flexible. The harrow may be made rigid when desired by braces provided for this purpose. Each section has six coulter's, making twelve in all. Width of cut is 6 feet 6 in. Weight, 125 pounds.

Acme harrows are made in various styles and sizes to do the best work in different farming sections of the country.

Send for Full Descriptive Catalog and Prices.

DEERE DOUBLE ACTION DISC HARROW

Teeth cannot get loose. No levers or joints to wear out and get out of repair. Harrows of this kind have been in constant use for fifteen years.

Little Giant Steel Walking Cultivator, 5 and 7 Tooth with Wood Handles

This tool is used for working very closely to small plants of tobacco, corn, potatoes, etc. It thoroughly pulverizes, but throws no dirt on plants. It is also used as a Straight Diamond Tooth Harrow, also as a Smoother with sharp points down in order to cut and level the surface, the tooth, with sheared end down, being less liable to injure young plants when smoothing over corn, potatoes, etc. For very close work every other tooth can be quickly removed.

14 Tooth Little Giant with lever and gauge wheel ........................................... $7.50

John Deere Steel Walking Cultivators

Same high-grade construction as the 5 tooth and having two more teeth.

No. 214 7 tooth with lever and gauge wheel ................................................. 12.25
Horse Hoe Attachment ................................................................. 2.25
Long Hiller Attachment .............................................................. 4.50

Seed will not grow in soil that is cloddy, dry and hard—you never know that. And there is no sure way of telling whether your soil will be left in that condition this year because of a continued spell of dry weather. Roll down those clods and you will have a seed-bed that will grow your costly seed.

The Johnston Steel Land Roller is recommended by farmers who have discovered the need of a roller. They prefer a steel roller to a wooden one because it is more durable and easy running. The Johnston Roller frame is of angle steel. The axle is of 1\(\frac{1}{4}\) inch steel shafting and turns in hard maple boxes carried in steel hangers. The drums are made of high carbon sheet steel. The ends are closed with solid sheet steel heads, held in place with bolts. It is made in eight feet; three sections, and drums twenty-four or twenty-six inches in diameter.

Because of the steel and malleable construction these Cultivators are very durable and free from breakage. Furnished with Horse Hoes or Long Hillers.

No. 306 5 tooth with lever and gauge wheel ................................................. $9.25
No. 206 5 tooth with lever and gauge wheel ................................................. 10.50
Horse Hoe Attachment ................................................................. 2.25
Long Hillers Attachment .............................................................. 4.50

Deere Steel 14 Tooth Cultivator

Especially adapted for use in corn and small plants. Stirs the dirt thoroughly but does not throw dirt on plant. Fitted with steel reversible teeth.

No. 320 14 Tooth lever and gauge wheel ..................................................... $8.50
Corn Planters

The John Deere No. 999 is the most accurate, and therefore the most desirable corn planter ever designed. Its extreme accuracy is obtained by means of its new and improved drop. That is, the seed cell and cut-off plates are so shaped that the kernels naturally lie on the hopper bottom in the best position to move toward, enter and rapidly fill the cells. The weight of the corn in the hoppers assists rather than hinders the filling of the cells. This construction secures the most accurate drop ever put on any corn planter, regardless of whether it is a flat drop or an edge drop planter.

Fertilizer Attachment

This attachment is easily put on without changing any of the regular parts of the planter. Easily removable hoppers have increased capacity and are so constructed that fertilizer is kept agitated and cannot bridge.

More and Better Corn

We have just issued an attractive, interesting and instructive booklet which more fully describes these planters. This booklet is furnished free upon request.

King of the Corn Field Planter

This Corn Planter has been for years one of the leading machines for planting corn, beans, peas, beets and other seeds used throughout this territory. It is equipped with fertilizer distributor, and is perfectly adapted to all requirements of this section. It can be arranged to drop any desired quantity of seed or fertilizer; can also be used for planting corn and beans at the same time, dropping each kind of seed in rotation. Price, $30.00

Eclipse Corn and Bean Planter

The Original Eclipse

This planter has been sold for over twenty years, thousands of them are in use, and there is great demand for this machine. The fact that the Eclipse is still on the market without being changed is guarantee enough of its efficiency and durability. Price, $30.00

John Deere No. 999 Two-Row Corn Planter

We furnish this with fertilizer attachment but illustration does not show it.

Strowbridge
Broadcast Seed Sower

It is a simple, effective seeding apparatus complete in itself which may be attached in a few moments' time to any farm wagon or other vehicle.

Price, $8.00

Improved Stone Boat Front

This device enables the farmer to make a good stone boat in one hour's time with ordinary straight plank that he may have on the farm. All tools necessary are saw and bit.

Bay State Cider and Wine Mill
With Aluminum Grinder

The Bay State Mill as illustrated is made on the grating principle, having two sets of rolls made adjustable for both large and small apples. Frame joint bolted throughout. Medium and large sizes furnished with Hinged Curbs; small with Plain.

Special circular on application.
Cahoon Seed Sower

Will sow all kinds of grass and grain seeds from four to eight acres per hour at a common walking gait. Heavy seeds, such as wheat, it will throw 40 feet (20 feet each side of the operator); lighter seeds, of course will not be thrown so far.

Price, $3.50. Postpaid, $3.65

Cyclone Seed Sower

This sower is guaranteed to distribute all grass seeds and grains perfectly even and directly to the land. Sows grass seed from 18 to 20 feet and grains a longer distance.

Price $1.75. Postpaid, $1.90

Hoover Potato Planter With Fertilizer Attachment

The Hoover Potato Planter is a new addition to the line of potato machinery manufactured by the makers of the well known Hoover Potato Digger. The Hoover Planter is just as well made and will be just as satisfactory to the user as the Hoover Digger has been. The main frame of the Hoover Planter is made of channel steel formed to the proper shape to bolt solid at both ends, with a steel yoke extending downward under the picker chamber.

Steel roller bearings on main axle.

Steel wheels 40 inches diameter 3½ inch tires.

Potato Hopper holds 2½ bushels.

All operations of the planter are under the eye of the operator from his seat at the rear.

Equipped with fertilizer attachment. Prices quoted on request.

Improved Robbin's Potato Planter

The 100% Potato Planter

This machine with proper attention will plant as perfect as it is possible for seed to be dropped. Has a very positive and successful fertilizer attachment that will handle all kinds of commercial fertilizers. The planter is light, strong, durable and very efficient in every way and is fully guaranteed. Send for Descriptive Booklet and Prices

The Automatic Hand Corn Planter

In the Automatic Corn Planter are combined all the latest and best improvements yet made in implements of this character. In this planter the seed is delivered from the dropper to the receptacle at the bottom, which, when opened by pressing over on the foot, leaves it at once at the depth required, avoiding the trouble found with all hand planters that deliver the seed direct from the dropper to the soil. It also has a most convenient attachment for regulating the depth of planting; this can be raised or lowered in a moment, and insures delivery of the seed at precisely the depth required, whether the soil be hard or mellow.

Standard Weeders

The frame is made of strong angle steel bars giving strength and durability. Teeth are specially constructed and oil tempered and have correct shape to give proper elasticity. Price $10.00

Our Implements are worth looking over. We extend a cordial invitation to call and examine them. Be sure and ask to see the New Columbia Garden Seeder.
VAN BRUNT FERTILIZER DISC DRILL
Light Weight Light Draft Force Feed Spring Pressure Large Capacity Durable
Even Seeding in Furrows of Uniform Depth. No Ground or Seed Wasted.
The drill that puts any seed, from alfalfa to bearded oats, at the bottom of furrows of even depth, without choking up and failing to sow part of the field or planting too much in other parts. All grain is ready for harvest at one time. Any standard fertilizer is handled by the Van Brunt just as accurately as seed. Send for Booklet.

STANDARD NONPAREIL LIME AND FERTILIZER SOWER
The Standard Nonpareil is simple in construction and operation.
It will sow a large variety of material, distributing air-slacked, hydrated or ground lime, ashes, plaster, fertilizers, bone, potash mixtures, cottonseed, nitrate of soda and acid phosphate.
Each machine equipped with screen which automatically screens the material while filling the box.
It can be quickly and easily adjusted to distribute evenly and accurately any quantity from 100 pounds to 3,000 pounds per acre.
Positive force feed—Sows 8 feet wide—hopper holds about 9 bushels and is 28 inches high.

Stevens Fertilizer Sower
This sower combines strength, simplicity and durability. Will sow all kinds of fertilizers either broadcast or in rows. Equipped with Land Gauge giving approximate amount sowed per acre.

Empire Broadcast Fertilizer Sower
The Empire 8-foot Broadcast Fertilizer Sower is especially designed for sowing a large quantity of lime or fertilizer per acre.
It has a positive force feed, which insures accuracy in the quantity sown.
The scattering tubes are constructed so as to deliver the fertilizer or lime in an even sheet over the ground.
The capacity of the Empire, as regularly equipped, is from 150 to 1,400 quarts of fertilizer; from 375 to 1,500 quarts of lime per acre. We can furnish gears that will sow a greater or lesser quantity if desired.

Johnston Steel Tedder
Johnston all-steel Tedders are strong and durable, and work most satisfactorily. The frame is steel, the wheels are steel and double hubbed. Three sets of roller bearings on the main shaft insure its light running. Three tined crucible forks are used; the spring on the fork is located behind it, and does not come in contact with the hay and get tangled in the rod and spring. Another feature is the spring balance tilt. The Johnston is equipped with combination pole or shafts. Made in two sizes, 6 and 8 fork.
Features That Characterize the Dain Vertical Lift Mower

Compensating Gears—That remove strain from the bearings and transmit instead of consume power.

Long Pitman Shaft—That has all end thrust removed, hence has no need of thrust bearings.

Alignment of Cutter Bar—Seldom necessary, but easily, quickly and positively made.

Centering the Knives—So that they always register perfectly in the guards, insuring perfect work.

Vertical Lift—A lift so easy to operate, an ordinary boy handles it readily.

An Easy Foot Lift—So easy it's surprising, especially after using other kinds.

Adjustable Draft Hitch—Instantly set to remove side draft in the most severe conditions of work.

Material and Workmanship—Of the known Dain standard proven by service reliable and trustworthy.

Send for Special Descriptive Booklet

The Johnston Lever Fold Mower

This Mower is strong, durable and very light draft, 34 in. drive wheels. Roller bearings. Wide truck. Long drive pitman. Long horizontal crank shaft. Excellent working foot lift. Convenient levers.

Complete Catalog of Johnston Machines on request.

No. 11—4-foot One-Horse Mower.
No. 12—5-foot Two-Horse Mower.
No. 14—6 and 7 foot Two-Horse Mower.

Dain Side Delivery Rake

The Dain Side Delivery Rake has a frame of strong steel construction giving great durability. Has strong steel raker teeth sufficient to rake and deliver the heaviest crop of hay, also having perfect flexibility when striking an obstruction.

No farmer cutting a quantity of hay can afford to be without one, especially if using a hay loader.

Leaves the hay in a long, continuous windrow in the very best condition for curing. Will shake water from grass in as satisfactory way as a tedder. Let us send you booklet giving full description and prices.
New Deere Hay Loader
For Swath or Windrow

An Economy

Where hay is grown in any quantity the saving in time, labor, and quality of product effected by a hay loader will often wipe out the purchase price the first year used and thereafter become a source of clear profit.

A Desirable Loader

The most desirable hay loader is the one that combines to the greatest degree durability, capacity, and efficiency. This describes the NEW DEERE LOADER in a nut shell. It is very durably constructed, yet light in weight, will pick up any quality and condition of hay either from the swath or windrow and do it as clean as any rake.

Send for Full Descriptive Catalog.

New York Champion Wood Rake

For years the NEW YORK Champion Rake has been the best known and most successful wood rake in this locality. We would certainly recommend the above to our customers who do not desire a steel rake.

It is carefully and substantially built, and nothing but the best of material is used in its construction.

Send for Circular

Full line of Paris Manufacturing Co. Barrows in all sizes.
Silver’s “Ohio” Light Draft Silo Fillers
WITH SUCTION BLOWER
Fill Highest Silos With Ease

Direct Drive. Drive pulley, cutting cylinder and fan wheel all on main shaft utilizes every ounce of power.

Patented Friction Reverse. By the use of a single lever all moving parts except knife cylinder, can be instantly stopped, started or reversed without the slightest strain. Not a gear tooth changes mesh in reversing—a remarkable feature.

Accessibility. Knives and cutter bar can be readily removed for sharpening or replacement without disturbing other parts. Experienced user will appreciate this advantage. The single lever control can be reached from almost any position around the machine.

Patented Knife Adjustment. This feature insures perfect cutting, which is just as essential to good silage as keeping the silo air tight. Uneven, imperfect cutting prevents close packing, causing air pockets and spoiled silage.

No. 40—Ohio Blower with traveling feed table; with 9-inch throat, two knives and curved elbow for top of pipe, not mounted. Weight, 790 lbs.

No. 60—Ohio Blower with traveling feed table; with 11-inch throat, two knives and curved elbow for top of pipe, not mounted. Weight, 835 lbs.

No. 90—Ohio Blower with traveling feed table; with 13-

Johnston Continental Corn Binder
Built for Business
Light, compact construction. Steel frame, wheels and beams. Light draft with no side draft. Large main drive wheel, gaining power. Roller bearings. Only machine with automatic gates. Two horses will handle the machine.

Send for Special Booklet

Ohio Power Cutters
No. 150 C Ohio Monarch Cutter with swivel carrier

Johnston Continental Grain
Strong, Durable, Efficient
Steel construction. Main drive wheel 36 in. giving great power. Roller bearings in both wheels greatly reducing draft. A trip that will never repeat and a knitter that always ties. Sold under a positive guarantee.

Special Booklet on Request

No. 11S4 Plain Table, 11 inch knife, weight 445 lbs.
No. 11SS4 Self-Feed Table, 11 inch knife, weight 600 lbs.
The knives are double-edged and reversible, one being straight, for slicing, the other edge being grooved, thus dividing it into separate bits for pulping.

The knives are adjustable to the cutting plate, which is to gauge the thickness of the slices and to counteract wear in the knives.

Capacity—Capacity per hour, slicing or pulping, hand, 30 bushels; power, 125 bushels.

Pulley—Size of pulley for power, 10x4 inches. Weight, 215 pounds, with pulley. Size and Price

CULTI-PACKER

Combination double gang pulverizer, roller, packer and clod crusher. It will serve all these purposes, as well as level the soil, leaving the small ridges loose, fine and mellow.

An increase of crops is guaranteed if used before and after seeding, and we claim this is the best implement made for preparing the seed-bed.

Send for descriptive matter and prices.

There is probably no implement so well known in potato-growing sections as the Hoover, Elevator Potato Digger. In Aroostook County, Me., where more potatoes are grown than any other section in New England, and where a potato digger gets a severe trial, the Hoover has given perfect satisfaction. Its success can be attributed to the fact that it was built to withstand most trying conditions.

It hardly seems necessary to go into detail regarding its points of merit, for its success is guarantee enough for its superiority in design, construction and efficiency in the field.

We do wish to call particular attention to the vine separator used on the Hoover, which delivers the vine, weeds and trash to one side of the row, leaving the potatoes exposed to view and readily accessible.

Send for descriptive catalogue which contains convincing testimonials from most enthusiastic purchasers.
THRESHERS
Strong, Durable and Efficient

We believe the Gray Thresher with the recent improvements to be one of the most reliable and satisfactory Threshers manufactured.

Furnished in several sizes either mounted or unmounted.

CATALOG ON REQUEST.

The Windmill is recognized by everyone to be one of the most efficient and cheapest powers obtainable for pumping water and the large number of these we install every season proves they are very satisfactory to our customers.

The Freeman, without a doubt is the strongest and most durable windmill made. Its simplicity of construction commends it to all buyers. Every detail part is made the best the manufacturers know how, making a faultless combination which cannot be equaled. A windmill that will do more work, stand harder service, require less repairs and will give you better satisfaction than any other mill on the market. If it doesn't we will right the wrong.

Freeman 4-Post Steel Towers

This cut illustrates the lower ten feet of our 30-foot, four-foot post angle steel tower. This illustration shows the thoroughness of the bracing employed in the construction of all our towers.

This strong tower is not to be compared with the cheaply built 3 post towers on the market, and we have no hesitancy in guaranteeing it under all conditions. One can hardly afford to take chances with an inferior tower and run the risk of a damaged mill and tower.

Estimates

We will be pleased to estimate cost of water supply where windmills, towers, substructures, pumps and wood or pneumatic tanks are used.

Write for Special Catalogues and Prices

Binder Twine

We carry the Standard Binder Twine, which has given such excellent satisfaction to the grain raisers. The fibre is long and runs very even. Write for prices.

NO. 25 STEEL FARM TRUCK

The above cut represents one style in our low-down farm gear. These are especially desirable where one desires a medium priced truck which is both light and strong, and well fitted for common farm purposes. Unexcelled for use in mounting spraying rigs, saw outfits, engines, etc. We can furnish these fitted with either wood or steel wheels, and they are commonly equipped with $\frac{3}{4} \times 10$ inch skeins and 4 inch tires.

HISCO STYLE "W" GASOLINE ENGINE

Davenport Roller Bearing Steel Farm Wagon

Roller bearings reduce draft 30 to 50%. Gear built of I-beams and channel steel making strongest construction possible. No dish to wheels giving full strength and full width of tire on road. The Davenport being almost entirely a steel wagon means it is not affected by weather conditions, consequently no trouble from drying, rotting or setting of tires.

Hisco Engines are built in a modern, up-to-date factory by competent and experienced men. Much of the machinery used has been designed and specially built to enable more economic production.

Simplicity. The Hisco Engine is of the side-rod type; all working parts are directly controlled by the Governor; mechanism is such that satisfactory results can be obtained by an inexperienced user. The engine is simple in design, and by studying the Instruction Book which accompanies each engine, a novice can secure good service.
The Spreader with the Beater on the Axle
All Driving Parts on the Rear Axle
No Clutches  No Chains
No Adjustments  Light Draft
Roller Bearings
This Spreader represents the very latest improvements in manure spreader and simple to operate. Apron absolutely cannot race. Steel and malleable construction. Load divided on all four wheels reducing draft.
If interested in a Spreader do not fail to send for our free, colored booklet, fully describing the John Deere.

IMPROVED WOOD AND POLE SAW FRAMES

The tilting table is pivoted so that it balances perfectly and is easy to handle. The sliding table is fitted with grooved rollers, which run on a "V"-shaped track, and is very easy to operate. The arbors are true and heavy. They run in long, babbitted bearings, and are fitted with a 95-pound balance wheel. On pole saw frames the connection between the two arbors is made by running belt over idler pulley.

Note. All our Wood and Pole Saw Frames are made right hand, unless otherwise ordered. Weights shown above are for machines without saw blades. Saw blades weigh about as follows:
20-inch, 8 pounds; 22-inch, 10 pounds; 24-inch, 14 pounds;
26-inch, 17 pounds; 28-inch, 20 pounds; 30-inch, 24 pounds.
Prices of Tables without Saws

Tilting Table Wood Saw $21.50
Tilting Table Pole Saw 28.00
Sliding Table Wood Saw 25.00
Sliding Table Pole Saw 31.00
7-foot Swing Table Pole Saw Frame 29.50
Iron parts only for Tilting Table Wood Saw Frame 17.75

Simonds' Celebrated Circular Saws

24-inch, set and sharpened $16.00
26-inch, set and sharpened 18.75
28-inch, set and sharpened 21.75
30-inch, set and sharpened 24.75

Illustrations show our various styles of Wood and Pole Saw Frames. These are substantial machines, well made and of good materials throughout. Wood saw frames have the balance wheel on the saw arbor, and are intended for sawing cord wood. Pole saw frames have the balance wheel on a separate frame below the table, so that they can be used for sawing long poles as well as cord wood. We make both styles of these machines with either tilting or sliding table.
This is the Renfrew Cream Separator which we sell you guaranteed to skim down to One One-hundredth of One Per Cent (.01 p. c.).

The Renfrew has more exclusive patented features than any other cream separator on the market.

The cut on the left shows the Interchangeable Bowl whereby any size can be made larger or smaller without the expense of buying a new machine.

There are twenty-two reasons why you should buy the RENFREW. Let us send you a catalogue with complete information explaining this cream separator which is more universally used at home and abroad than any of its competitors.
The New Sharples Suction-Feed Tubular Cream Separator

Since the beginning of the centrifugal separator, its one great province has been to save. Save cream, save butterfat, save the warmth, freshness and value of skim-milk, save labor, save quality of produce, always saving. What it saves is its value. It has no other value.

The New Sharples Suction Feed Separator is the only one which automatically adjusts the flow of milk to the separating force. It simply sucks in enough milk so that the speed of the bowl can take care of it. In this way, it makes little difference whether you turn the crank under speed or above speed, you will always get a dead clean skim. Just set cream screw and the cream will contain exactly the same percentage of butterfat.

There are many other advantages in using the New Sharples. The supply can, for instance, is only 24 inches above the floor, so that it is easy to fill from the milk can. The Tubular bowl contains no discs or other contrivances which are hard to wash and hard to keep clean. The New Sharples is easy to turn, because you can adjust the speed according to your strength.

The New Sharples is thoroughly described and illustrated in our new catalog, and we will be very glad to have you ask for a copy.

The Sharples Mechanical Milker

Every man keeping a fair sized dairy should be interested in this milker for the following reasons:

First—The cost of milking cows can be reduced seventy-five per cent., or you can milk four times as many cows with the same number of men.

Second—One operator and one boy, to milk and assist, can properly milk one hundred cows in less than two hours, giving independence from hired help in case of necessity.

Third—The improvement in the cow's condition, resulting from the thorough, quick, gentle and regular work of the milker will induce an increased milk production.

Fourth—A far purer product; lower bacterial count and more valuable milk is assured, because all stable air is entirely excluded and the milking parts are so easily and thoroughly cleansed.

These statements are based on close and extended observation of large numbers of these milking machines in actual operation, under widely varying conditions for long periods of time.

Send for Catalog and Detailed Information

CHATHAM CLEANING, GRADING AND SEPARATING MILL, AND BAGGING ATTACHMENT

Capacity 60 Bushels Per Hour Power Easy to Run by Hand. Boy Can Run It

Attachment to run by power, if you want it. The Bagger is adjustable. Can be attached or detached in an instant. No Screws, Bolts or Nails to contend with, simply throw off the drive chain, place foot upon board which connects Bagger to Mill at the bottom, then lift up the Mill and the Bagger is detached.

Knife and Tool Grinder

Grinder is convenient for use in field as it can be readily attached to mower wheel by thumb-latch which holds grinder in position. This grinder does its work perfectly, lever gives operator perfect control so that nicks can be ground out and shape of stone insures sections being ground with their original bevel. This grinder can also be furnished on special order as a foot power machine.
We are in position to furnish complete barn Outfits of the most improved type including Stalls, Stanchions, Hay and Litter Carriers, Water Basins, Mangers, etc. Estimates and information gladly given and if building new or rebuilding your old barn will furnish without charge Blue Prints giving most improved construction.

Porter Steel Stanchions

These Stanchions are made of high carbon U-bar steel and are amply strong. The lock is simple and positive in action. Can furnish with wood lining if desired, also small size for calves and extra heavy for bulls.

Buckley’s Watering Device

Illustration shows the general application of this system, but a brief description will be necessary to demonstrate its importance, usefulness and simplicity. On application we will mail descriptive catalog with testimonials, etc.

The Porter Litter Carrier

Shown above is a high-class machine, built for heavy service. The tub is four feet long and two feet wide, with a capacity of 12½ cubic feet, or 800 pounds of wet manure. It is built of heavy, galvanized steel, reinforced with rolled steel angle one inch wide all around the top and along the end seams. Most perfect lifting device found on any Carrier. Furnished with chain hoist if desired.

Send for full descriptive catalogue.

There has always been a large demand for a Wing Potato Hoe of this type. They are constructed of the best material and are invariably satisfactory to our customers. They are fitted with an adjustable extension on the wings which is a decided advantage. Price, $11.00

Can also furnish the well-known Syracuse Wing Potato Hoe.

A great many persons prefer the disc type of hoe in preference to the wing. Standards are movable on crossbar to allow spacing of disc. Equipped with 20-inch disc.

Price, $14.50

Hisco Wing Potato Hoe

Two-Piece Wings

Hisco Disc Potato Hoe

Price, $12.00
Imperial Tires

PRICES ON APPLICATION. STATE SIZE

Imperial tires are made of very best grades of long fibre fabrics and purest, liveliest rubbers. In all sizes, the extra heavy, yet superflexible carcass is well balanced by the thick, tough tread.

Carcass and tread are vulcanized by a special single cure, full molded process which insures perfect unity between these members, and casing of the greatest physical endurance and riding comfort is the result.

The non-skid, in addition to combining all practical features of skid prevention, provides a smooth rolling contact on all roads.

A liberal 3500 mile guarantee insures the user of complete satisfaction against mechanical and material imperfections, and any Imperial tire failing to render the guaranteed mileage under normal conditions will be promptly adjusted on basis of obtained mileage, when returned to us, transportation charges prepaid.

Imperial Tubes

Imperial Tubes, in both the grey and red brands, are thick, tough and non-deteriorating. They are all made by the laminated process—layer upon layer of thin rubber sheets of uniform thickness wrapped upon a highly polished mandrell, or pole, and carefully vulcanized into a perfect non-separating unit, which precludes the possibility of pin holes or slow leaks.

Both red and grey Schrader Valve fully boxed in attractions, ready for shipment—guaranteed to give tubes are fitted with Equipment and care-tive, dust proof car-ment. Each brand complete satisfaction.
Chase Farm Tractor

Only Tractor That Turns in a Radius of Its Own Width

An individual Jaw-Clutch, engaged directly with the Driving Pinion of each Rear Wheel, is released by pressing a convenient foot-pedal. That particular wheel immediately ceases to drive and becomes a Pivot about which the tractor can be turned at a right angle in a space as small as would be required to turn a team of horses.

This feature is invaluable in working narrow "lands," young orchards and in many other instances where turning space is necessarily limited. It permits short turns to the right or to the left, and is an exclusive feature of CHASE construction, not found in other makes of tractors.

Built in the East to Meet Conditions on Eastern Farms
